1998 SUBJECT INDEX

January	pages	1–216
February	pages	217–462
March	pages	463–670
April	pages	671–856
May	pages	857–1066
June	pages	1067–1296
July	pages	1297–1530
August	pages	1531–1764
September	pages	1765–1980
October	pages	1981–2202
November	pages	2203–2490
December	pages	2491–2834

A

Acanthoamoeba castellanii
- antigens, oral immunization with, impact on parasite adhesion and corneal infection, 2337
- keratitis
  - diagnosis by PCR, tear and corneal epithelial samples, 1261
  - resistance and mucosal IgA, 2666

Accomodation, eye elongation during, emmetropia vs. myopia, 2140

Acetylcholine
- induced membrane potential oscillations, in intact lens, cataracts and (rabbit), 111
- lacrimal gland M_3 muscarinic receptors, autoantibodies against, in Sjögren's syndrome patients, 151
- muscarinic receptor antagonists, scleral chondrocytes and (chick), 2217

Acquired immune deficiency syndrome (AIDS)
- cytomegalovirus retinitis in, effects of HPMPC on IOP (guinea pig), 1233
- ocular fluids and blood of patients, cytomegalovirus retinitis in, genotyping of cytomegalovirus glycoprotein B, 1183

Actin, cytoskeletal network, signal transduction and, alteration by mechanical stretch in trabecular meshwork, 1361

Adenosine, cAMP/protein kinases and, regulation of corneal hydration permeability by, 2076

Adenovirus
- cathepsin S antisense transcripts, RPE cells, 2095
- gene transfer to human trabecular meshwork, anterior segment perfusion, 1503
- multiple serotypes, host range extension and (rabbit), 532

Adherens junction, tight junction and, human retinal endothelial, 2479

Adhesion molecules
- CD44, expression and distribution in corneal reepithelialization, 710
- leukocyte levels and, in allergic eye disease, 322

Age/aging
- age-related macular degeneration, Alabama grading system for donor eyes, 1085
- cataractous lens, altered gene expression, 2344
- cellular, telomere lengths in donors of different ages, corneal endothelium, 648
- changes, light history and, retinal light damage and (rat), 1107
- hypertension/atherosclerosis and, perifoveal vessels in, Rotterdam Study, 1049
- lens epithelial cell death and cataract, 2696
- lens thickness correlates, Beaver Dam Eye Study, 1507
- lipid oxidation and, human lenses, 1053
- macular degeneration
  - choroidal blood flow in, Letter, 2201
  - foveolar choroidal blood flow and, 385
  - macular pigment distribution and foveal cone photopigment distribution, 2394
- maculopathy, refractive error and, Blue Mountains Eye Study, 2167
- nuclear lens opacities, reduced growth before 1 year of age and, 1740
- RPE autofluorescence, long-term postconfluent cultures, 1478
- visually guided behavior changes (rat), 1058
- visual sensitivity, macular pigment density and, 397

Agonists
- α_2-adrenergic, activation of extracellular signal-regulated kinases in Müller cells, 1721
- β-adrenergic, effect on paracellular width and fluid flow across endothelial cells, 1813

Alabama grading system, donor eyes, age-related macular degeneration in, 1085

Albumin, cryopreservation and culture of corneal keratocytes and, 1511

Aldose reductase, involvement in napthalene cataract (mice), 193

Alkali injury, inflammation after, chemoattractant injection into normal cornea as model, 1744

Allergies, conjunctivitis, adhesion molecules and leukocyte levels in, 322

Alloantigens, corneal, oral immunization, immunologic phenotypes of hosts, 744

Allografts, cornea, enhanced survival by oral immunization, 1835

Amacrine, retinal bipolar cells and, selective release of nitric oxide from (rabbit), 850

Amblyopia, anisometropic and esotropic, multifocal visual evoked potential, 2033

Amino acids, signatures
- detached retina (cat), 1694
- normal retina (cat), 1685

Amyloid precursor-like protein 2, corneal epithelial wound healing and, 292

Angiogenesis, evolution of neovascularization, overexpression of vascular endothelial growth factor in photoreceptors (mice), 180

Angiography, fluorescein, oxygen-induced proliferative retinopathy and, clinical and histopathologic features (dog), 1918

Angiopoietinlike factor, corneal integrity and, molecular cloning, 1782

Angiotensin II, insulin and, ciliary artery smooth muscle growth and, 2067

Animal model
- acute and chronic *Toxoplasma* cysts, drug therapy and (hamster), 1171
- acute uveitis, lipoteichoic acid and (rat), 1251
- age and changes in visually guided behavior (rat), 1058
- amino acid signatures
  - detached retina (cat), 1694
  - normal retina (cat), 1685
- anterior chamber depth, 24-hour change in axial length of rabbit eye, 2796
- aqueous humor protein concentration, circadian rhythm of (rabbit), 553
- blepharospasm and hemifacial spasm, doxorubicin chemomyectomy and, enhancement after bupivacaine injections, muscle satellite cell division and (rabbit), 203
- capillary hemodynamics, retina, regional variation (cat), 407
- c-*fos* and c-*jun* mRNA expression, in Müller cells, by bFGF (rat), 565
- choroidal blood flow, nitric oxide maintenance in, Doppler flowmetry (rat), 559
- chronic experimental glaucoma, parapapillary chorioretinal atrophy and (monkey), 2296
- ciliary epithelium, aqueous humor secretion and, effects of bicarbonate on cell composition and (rabbit), 1631
- cone degeneration, transducin-γ gene and (dog), 1775
- connexin, retroviral expression, lens (chick), 537
- corneal edema, endotoxin-induced uveitis, effect of L-NAME as NOS inhibitor (rat), 897
- corneal epithelium, water permeability reduction by anisotonic solutions (frog), 378
- corneal oxygen consumption (rabbit), 444
- corneal wound healing, expression of TIMPs and gelatinases A and B during (rat), 913
- cultured nonpigmented ciliary epithelium, ascorbic acid and active sodium transport and (rabbit), 143
- diabetic retinopathy, early and late intervention therapies for, galactose-fed rats, 1933
- DNA introduction into trabecular meshwork, fusogenic liposomes and (rat and primate), 509
- estrogen receptor proteins, retinal expression (bovine and rat), 2105
- excitotoxic neurodegeneration, retina, induction by oxygen and glucose deprivation (chick), 416

Copyright © Association for Research in Vision and Ophthalmology

experimental ROP, hyaloidal circulation and ocular growth patterns in (rat), 391
extreme pupil responsiveness, steady retinal illumination, dark-adapted mouse, 2148
foreign antigen expression, lens, immunotolerance (rat), 2049
fornical conjunctival and limbal epithelial cells, phorbol ester proliferation stimulation (mice), 301
gene deletion animals, IL-6 and endotoxin-induced uveitis in (mice), 64
glaucoma topical therapy, IOP control and optic nerve protection with (rat), 526
glaucomatous retina, morphology of single ganglion cells and (primate), 2304
glutamate immunoreactivity, normal and detached retina (cat), 786
guanylate cyclase activating proteins, gene array, retina (mouse), 867
HSV accumulation in cornea and, latency-associated transcripts and (rabbit), 1847
infant monkey, directional bias in visual cortex, V1 neurons and, 2259
integrin expression, hypoxia and VEGF regulation of, in retinal endothelial cells (bovine), 1028
intraocular neovascularization inhibition, by retinal ischemia, protein kinse-Cβ inhibition with LY333531 (pig), 171
intraocular pressure and telemetry, animal handling and drugs in (rabbit), 2485
IOP
  effects of HPMPC on (guinea pig), 1233
  induced retinal ischemia, memantine protection (rat), 1063
iris atrophy/pigment dispersion/glaucoma, DBA/2J mice, 951
iron-induced apoptosis, in photoreceptors (rat), 631
lens, flux investigation through 3-FG substrate, ^{19}F-NMR spectroscopy and (dog)
lens apoptosis, UV radiation (rat), 2681
lens fiber cells, membrane currents in, isolation in calcium-free conditions (rat), 1280
lens γ-crystallins, aggregation in aqueous solutions (bovine), 1609
lens structural changes, lack of protein connexin43 and (mice), 1198
lipocalin-type prostaglandin D_2 localization in ciliary body/iris/eye fluids (rat), 198
mRNA expression and cloning, calpain Lp82 from lens (rat), 454
multiple adenovirus serotypes, host range extension and (rabbit), 532
muscarinic acetylcholine receptor antagonists, scleral chondrocytes and (chick), 2217
myofibroblast transformation of corneal endothelium, TGF-β_1, -β_2, -β_3 (cat), 2018
neonatal corneal endothelium, mitotic inhibition (rat), 2572
neuronal retinal cell death, photoreceptor degeneration and, in *Bax*-deficient mice, 1713
nitric oxide release, retinal bipolar cells and amacrine and (rabbit), 850
normal and *rd* chickens, optical coherence tomography and microanatomy, 2405
oxygen-induced proliferative retinopathy, clinical and histopathologic features (dog), 1918
β-phosphodiesterase mRNA, message instability, selective retinal degradation (mouse), 2529
photoreceptor dystrophy and hypoxia, in RCS rat, 2427
photoreceptors and light damage, luzindole melatonin antagonist in (rat), 2458
photostasis, effect of eye closures and openings on (albino rat), 603
pigmented conjunctiva
  monocarboxylate drug carrier-mediated transport (rabbit), 1436
  nucleoside transport mechanisms in (rabbit), 372
plasminogen-/fibrinogen-deficient mice, healing of corneal epithelial defects and, 502
postnatal eye, cataractogenic potency of TGF-β_1/-β_2/-β_3 in (rat), 1399
preconditioning, ischemic retinal damage and (rat), 777
primary Sjögren's syndrome, topical cyclosporin A in (mouse), 1551
rds/peripherin homologs, identification in retina (chick), 440
reflectance of retinal nerve fiber layer, microtubule contribution to (toad), 189
retina and ciliary body arteries, effect of NO donors on (bovine), 1642
retinal degeneration, survival factor protection of photoreceptors (mouse), 592
retinal degeneration and absence of c-*fos* (mouse), 2239
retinal hypoxia, long-term diabetes (cat), 1647
retinal light damage, light history and age-related changes (rat), 1107
retinal Müller cells, establishment and characterization of (rat), 212
rhodopsin transgenic pig model, human retinitis pigmentosa, 808
risk factors for retinoblastoma, multiple genetic loci (mice), 2723
scleral proteoglycan turnover, experimental myopia (chick), 1990
α-2,3-sialyltransferase expression, corneal epithelium (rabbit), 905
SPARC deficiency, early-onset cataractogenesis and (mice), 2674
superior lacrimal gland, inwardly rectifying potassium channel in (rabbit), 308
thioltransferase distribution, in ocular tissue (bovine), 476
TNF receptors/IL-4/nitric oxide synthase deficiency, endotoxin-induced uveitis and (mice), 658
transgenic mice, expression of human retinal photopigments in, 1036
transgenic
  aldose reductase and napthalene cataract (mice), 193
  evolution of neovascularization, overexpression of vascular endothelial growth factor in photoreceptors (mice), 180
  ultrastructural changes in ciliary body, after subconjunctival injections of mitomycin C (rabbit), 1971
  wound- and inflammation-related corneal neovascularization, vascular endothelial growth factor in (rat), 18
  X-linked congenital stationary night blindness, naturally occurring (mice), 2443
  x-ray-induced cataracts and DNA strand breaks, TEMPOL lens protection and (rabbit), 544
Aniridia
  missense mutation, C terminus of *PAX6* gene, ocular anterior segment anomalies, 828
  PAX gene missense mutations in, 2524
Anisotonic solutions, water permeability reduction by, corneal epithelium (frog), 378
Annulus, circumcorneal, collagen fibrils and, in human limbus, 1125
Anterior chamber
  depth, 24-hour change in axial length of rabbit eye, 2796
  inoculation of HSV-1, T cells in uninjected eye after (mice), 78
  oxygen tension in, measurement of (rabbit), 1899
Anterior chamber–associated immune deviation (ACAID), IL-1 receptor antagonist and, Langerhans cell activity suppression and ocular immune privilege promotion, 70
Anterior segment, perfusion, gene transfer to human trabecular meshwork, adenovirus vector, 1503
Antibiotics, topical, *Streptococcus pneumoniae* keratitis and (rabbit), 2012
Antibodies, activation of complement system, C1q and, small molecular weight factor in aqueous humor and, 989
Antigens
  changes in retinal Müller cells (rabbit), 1453
  corneal epithelium-derived, vasculitis and, 2594
  foreign, immunotolerance against, expression in lens (rat), 2049
  helminth-induced keratitis, granulocytes and, 1176
  nasal administration, mucosal tolerance induction, effects of mycophenolate Mofetil, 835
  parvalbumin, in retinoblastoma eyes, 1044
  subretinal space injection, immune deviation and, 1823
Antimetabolites, induction of apoptosis by, Tenon's capsule fibroblasts and, 449
Antioxidants, retinal ischemia-reperfusion injury, adult T-cell leukemia–derived factor and (rat), 1470
Apoptosis
  antimetabolite-induced, Tenon's capsule fibroblasts and, 449
  γ-irradiation–induced, IL-1β–converting enzyme in, retinoblastoma cells, 2769
  gene regulation of, retinal degeneration and absence of c-*fos* (mouse), 2239

human retinoblastoma cells, induction by topoisomerase inhibitors, 1300
iron-induced, photoreceptor cells (rat), 631
ischemia and, melatonin counteraction, RPE cells, 2374
keratocyte
after corneal surgery, 276
corneal wound healing/tissue organization/disease, New Development, 220
lens, UV radiation and (rat), 2681
light-induced, in retinal photoreceptors, p53 and, 846
optic nerve crush, retinal ceruloplasmin expression after (rat), 157
retinal pericyte expression, rapid glucose reduction and, 1535
RPE, activated T cells, immune privilege and, 1590
Aqueous humor
ascorbate, effect on UV-induced damage in lens epithelium, 344
calcitonin gene-related peptide in, suppression of NO generation by, 1372
circulation, corneal health and, oxygen tension in anterior chamber and, measurement of (rabbit), 1899
dynamics, fundus circulation and, effects of topical nipradolol on, 736
flow, norepinephrine infusion and, sleeping humans, 1759
H_2O_2 concentration in, cataract formation from oxidative stress, 1188
MMP activation in, Letter, 1763
nonpigmented epithelial cells, dopamine stimulation of Na^+,K^+,Cl^- cotransport in, 1444
outflow
human trabecular meshwork and, expression of insulin-like growth factor-I receptor and insulin-like growth factor binding protein-5 by, 45
two pore types in inner wall of Schlemm's canal, 2041
outflow modulation, MMPs and, human organ culture, 2649
protein concentration, circadian rhythm of (rabbit), 553
Schlemm's canal endothelial cells, isolation/culture/characterization, 1804
secretion, effects of bicarbonate on cell composition, ciliary epithelium (rabbit), 1631
small molecular weight factor in, C1q and prevention of antibody-dependent complement activation, 989
vitreous and, adenosine levels in, 1942
Aqueous solutions, aggregation of lens γ-crystallins in (bovine), 1609
ARPE-19 cell line, polarity model in RPE, FGF5 in, 2744
Arrestin, locus, retinitis pigmentosa/stationary night blindness and, 665
Arteries, retina and ciliary body, effect of NO donors on arteries of (bovine), 1642
Arteriole, constriction, after retinal branch vein occlusion, nitroprusside and, 1910
Ascorbic acid
active sodium transport and, in cultured nonpigmented ciliary epithelium (rabbit), 143
aqueous humor, effect on UV-induced damage in lens epithelium, 344
corneal epithelium, diurnal and nocturnal species and, 2774
Astigmatism, irregular, videokeratography data, Fourier analysis of, 705
Atherosclerosis, aging/hypertension and, perifoveal vessels in, Rotterdam Study, 1049
Atrophy
iris, pigment dispersion/glaucoma and (mice), 951
parapapillary chorioretinal, chronic experimental glaucoma and (monkey), 2296
Autoantibodies
to heat shock proteins, glaucoma and, 2227
against lacrimal gland M_4 muscarinic acetylcholine receptors, in Sjögren's syndrome patients, 151
specific for Müller cells, patient with progressive loss of vision and, 1976
Autofluorescence
granules, in human cultured RPE cells, 1487
RPE, long-term postconfluent cultures, 1478
Autoimmune diseases
experimental autoimmune uveoretinitis, inflammatory response and T cell traffic in, 754
nasal antigen administration, mucosal tolerance induction, effects of mycophenolate Mofetil, 835
Autoimmunity, corneal epithelium-derived antigens, vasculitis, 2594
Axial length, 24-hour change, rabbit eye, 2796
Axon terminal, preganglionic, localization of neuropeptide Y-like immunoreactivity to, in ciliary ganglion (monkey), 227
Axotomy, induced apoptosis, optic nerve crush and, retinal ceruloplasmin expression after (rat), 157

B

Basic fibroblast growth factor (bFGF)
c-*fos* and c-*jun* mRNA expression by, in Müller cells (rat), 565
oxygen/debris and, roles in photoreceptor dystrophy, in RCS rat, 2427
photoreceptors, survival and, effects of retinal laser photocoagulation, 618
VEGF and, mRNA expression in Müller cells, PGE_2 and (rat), 581
Bax, deficiency, retinal neuronal cell death and photoreceptor degeneration in (mice), 1713
Beaver Dam Eye Study, lens thickness correlates, 1507
Behçet's disease, T cells, IL-2 and INF-γ production in, 996
Berman, Elaine Ruth, 1923–1997, In Memoriam, 672
βg-b3 gene, *R124H* keratoepithelin mutations, severe corneal dystrophy and, 1947
Bicarbonate, cell composition and, aqueous humor secretion and, ciliary epithelium (rabbit), 1631
Biglycan, decorin and, in corneal scarring
Binocular vision, optokinetic assymetry and, early-onset esotropia and, 1352
Biology, pathology and, cellular, MMPs and, new discoveries, New Developments, 2514
Biomechanics, hydrated and swollen cornea, anterior-posterior strain variation in (rabbit), 253
Biometrics
Hirschberg ratio confirmation, children with strabismus and, 2782
study of eye/orbit/face, normal human fetuses, 2232
Blepharospasm, hemifacial spasm and, doxorubicin chemomyectomy and, enhancement after bupivacaine injections, muscle satellite cell division and (rabbit), 203
Blood flow
capillary hemodynamics, regional variation, retina (cat), 407
choroidal
age-related macular degeneration, Letter, 2201
nitric oxide in, Doppler flowmetry and (rat), 559
foveolar choroidal, age-related macular degeneration and, 385
human, binding properties of indocyanine green, 1286
hyaloidal, ocular growth patterns and, experimental ROP (rat), 391
normal ocular, noninvasive investigations, humans, 1210
PGE_2 and $PGF_{2\alpha}$, receptors, function increase by cyclooxygenase-1 and -2, 1888
Blood vessels, retina, oxygen-induced retinopathy, clinical and histopathologic features (dog), 1918
Blue Mountains Eye Study, age-related maculopathy and refractive error, 2167
Bone morphogenic proteins, 1 and 2, receptors and, adult cornea, 2626
Branch vein occlusion, retina, nitroprusside and arteriolar constriction after, 1910
Breast, cornea and, epithelial cells, KGF receptor cDNA, 2584
Bruch's membrane, capillaries at ora serrata, human eye, 1076
Bullous keratopathy, corneas with, tenascin-C splice variants in, 1135

C

Caenorbabditis elegans, *unc-119*, expression in photoreceptors, human and murine cDNA, 2085
Calcium, synergistic receptor-activated increases, nonpigmented epithelial cells, 1429
Calpain Lp82, from lens, mRNA expression and cloning (rat), 454
Capillaries
Bruch's membrane at ora serrata, human eye, 1076
hemodynamics, retina, regional variation (cat), 407

retinal basement membrane, diabetic retinopathy and, early and late intervention therapies for, galactose-fed rats, 1933
Carbogen, inhalation, MRI and, panretinal response, experimental retinopathy of prematurity, 840
Carbonic anhydrase inhibitor, dorzolamide hydrochloride, glaucoma treatment, effects on corneal endothelial function in normal human eyes, 23
Carotenoids, macular pigments, Raman spectroscopy detection of, in intact retina, 2003
Cataract
acetylcholine-induced membrane potential oscillations in intact lens and (rabbit), 111
altered gene expression in lens, 2344
chromosome 3 mutation and, *Cat-4*[a] location (mouse), 1863
congenital, early treatment and visual development, 1560
early-onset of, SPARC deficiency and, 2674
lens epithelial cell death and, age and, 2696
lens γ-crystallins, aggregation in aqueous solutions (bovine), 1609
naphthalene, aldose reductase involvement in (mice), 193
nuclear
glycation-related lens pigments, fluorescence and immunochemical studies
nutrition and, intervention, New Developments, 1531
oxidative stress and, H_2O_2 concentration in aqueous humor, 1188
potency of TGF-β_1/-β_2/-β_3 in postnatal eye (rat), 1399
surgery, effect on TGF-β and lens cell proliferation, 1410
x-ray–induced, DNA strand breaks and, TEMPOL protection in lens (rabbit), 544
Cathepsin S, adenovirus expression, antisense transcripts, RPE cells, 2095
Cathepsin V, isolation and characterization, proteinase in corneal epithelium, 1789
Ca^{2+}-wave, propagation, cultured RPE dystrophic rat cells, 1493
CD44, expression and distribution, corneal reepithelialization and, 710
CD44H, localization, primary open-angle glaucoma and, 673
cDNA
cloning of retinal rod Na-Ca+K exchanger, revised bovine sequence and, 435
human and murine, *Caenorbabditis elegans unc-119* expression in photoreceptors, 2085
KGF receptor, corneal and breast epithelial cells, 2584
Cell composition, bicarbonate and, aqueous humor secretion and, ciliary epithelium (rabbit), 1631
Cell cycles, regulators, choroidal melanocytes and melanoma cells, 876
Cell death
lens epithelial, cataract and, age and, 2696
light-induced, in retinal photoreceptors, p53 and, 846
ornithine cytotoxicity, prevention in retinal pigment epithelium, proline and, 808
retinal ganglion, low dose glutamate and (rat), 972
retinal ischemia and, cyclin D1 in, 610
retinal ischemic preconditioning and (rat), 777
retinal neuronal, photoreceptor degeneration and, *Bax*-deficient mice, 1713
surfactant-induced corneal injury, area and depth in, 922
transient ischemia, vulnerability of inner retina to, role of p53 protein, 2132
Cell–matrix interactions, cornea, during normal development and healing, mRNA levels of collagen (rabbit), 36
Cerebrospinal fluid, pressure, retrolaminar tissue pressure and, in optic nerve, 1419
Ceruloplasmin, retinal expression, after optic nerve crush (rat), 157
c-*fos*
absence of, retinal degeneration and (mouse), 2239
c-*jun* and, mRNA expression by bFGF, in Müller cells (rat), 565
cGMP, gene mutation, defective RNA splicing and, 463
Chemoattractants, injection into normal cornea, model for inflammation after alkali injury, 1744
Chemokines, MIP-2 and KC, neutrophil migration and tissue injury from, HSV-1 in cornea and, 1854
Chemomyectomy, doxorubicin, enhancement after bupivacaine injections, muscle satellite cell division and (rabbit), 203
Children's vision, optical and structural development of crystalline lens, 120
Chlorpyrifos, organophosphate pesticides, deprivation myopia and, 1290
Cholesterol, changes in phospholipids/proteins and, focal opacities in human lens and, 94
Chondrocytes, scleral, muscarinic acetylcholine receptor antagonists (chick), 2217
Chorion, type, saccadic eye movements and, twins, 2186
Choroid
avian, fine structure of lymphatics, Letter, 854
blood flow
age-related macular degeneration, Letter, 2201
nitric oxide in, Doppler flowmetry and (rat), 559
circulation, optic nerve and, in glaucoma, 2329
melanocytes, melanoma cells and, G1 cyclins and cyclin-dependent kinase inhibitors, 876
neovascular membranes
MMPs and TIMPs in, 2194
photocoagulation-induced, retrovirus-mediated gene transfer to, 2474
retina and
leukocyte kinetics, cell tracking and quantification by scanning laser ophthalmoscopy, 1879
vasculature, noninvasive optical sectioning and, 2733
sclera and, nonvascular contractile cells in humans and monkeys, 1765
Chromosome 9, *Cat-4*[a] location, cataract and (mouse), 1863
Cidofovir, intravitreal injections of, effects on IOP (guinea pig), 1233
Ciliary body
artery smooth muscle, insulin and angiotensin II in growth of, 2067
cultured nonpigmented epithelium, ascorbic acid and active sodium transport in (rabbit), 143
epithelium, aqueous humor secretion and, effects of bicarbonate on cell composition and (rabbit), 1631
ganglion, neuropeptide Y-like immunoreactivity and, localization to axon terminals (monkey), 227
iris/eye fluids and, localization of lipocalin-type prostaglandin D_2 (rat), 198
muscle, trabecular meshwork and, contractility of, protein tyrosine kinase and, 1012
nonpigmented epithelial cells, synergistic receptor-activated calcium increases in, 1429
retina and, effect of NO donors on arteries of (bovine), 1642
ultrastructural changes, after mitomycin C injections (rabbit), 1971
Circadian rhythm
24-hour change in axial length, rabbit eye, 2796
nocturnal elevation of IOP, young adults, 2707
protein concentration, aqueous humor (rabbit), 553
Circulation
aqueous humor, corneal health and, oxygen tension in anterior chamber and, measurement of (rabbit), 1899
choroidal, optic nerve and, in glaucoma, 2329
foveolar choroidal, age-related macular degeneration and, 385
fundus, aqueous humor dynamics and, effects of topical nipradolol on, 736
hyaloidal, ocular growth patterns and, experimental ROP (rat), 391
iridial, measurement with laser speckle phenomenon, 364
normal ocular, noninvasive investigations, humans, 1210
retinal microcirculation, ischemia reperfusion injury, leukocyte dynamics in, 793
c-*jun*, c-*fos* and, mRNA expression by bFGF, in Müller cells (rat), 565
Cloning
molecular, human cornea, angiopoietinlike factor from, 1782
mRNA expression and, calpain Lp82 from lens (rat), 454
Colchicine, reflectance of retinal nerve fiber layer and, microtubule contribution to (toad), 189

Collaborative Longitudinal Study of Keratoconus, evaluation of baseline findings, 2537
Collagen
  contraction by keratocytes, SPARC and, corneal epithelial cells, 2547
  fibrils
    circumcorneal annulus of, in human limbus, 1125
    in human corneal stroma, structure and aging, 644
  gel, contraction, TGF-β1 and, corneal fibroblast contractility and myofibroblast differentiation, 699
  types VI and XII, corneal development and wound healing and (rabbit), 36
Color vision, red and green pigment gene promoters, functional analysis of, 885
Complement system, antibody-dependent activation, C1q and, small molecular weight factor in aqueous humor and, 989
Cones. *See* Photoreceptors
Confocal Raman microscopy, human eye lens, cholesterol/phospholipid/protein changes in focal opacities in, 94
Conjunctiva
  bulbar cells, ionic currents from, 351
  epithelial cells
    mucin alteration, dry eye, 2602
    p-glycoprotein drug efflux pump in (rabbit), 1221
    proton-driven dipeptide uptake, 2365
  fornical limbal epithelial cells, phorbol ester stimulation (mice), 301
  inflammation process, Nerve growth factor receptor expression on ocular surface, 1272
  mast cell TNF-α, ICAM-1 expression in epithelial cells and, 336
  ocular cicatricial pemphigoid, costimulatory molecules in, 982
  pigmented
    monocarboxylate drug carrier-mediated transport (rabbit), 1436
    nucleoside transport mechanisms in (rabbit), 372
Conjunctivitis, allergic, adhesion molecules and leukocyte levels in, 322
Connexin43, gap junction proteins, lens structural changes and (mice), 1198
Connexins, retroviral expression, lens (chick), 537
Contractile cells, nonvascular, in sclera and choroid, humans and monkeys, 1765
Contractility, trabecular meshwork and ciliary muscle, role of protein tyrosine kinase in, 1012
Cornea
  alloantigens, oral immunization, immunologic phenotypes of hosts, 744
  allograft, enhanced survival by oral immunization, 1835
  breast and, epithelial cells, KGF receptor cDNA, 2584
  bullous keratopathy in, tenascin-C splice variants in, 1135
  corneal wound healing/tissue organization/disease, keratocyte apoptosis and, New Development, 220
  damage, bacterial virulence and, *Pseudomonas aeruginosa* protease IV and, 662
development and wound healing, mRNA levels of collagen during (rabbit), 36
dystrophy, *R124H* keratoepithelin mutations of *βg-b3* gene, 1947
edema, endotoxin-induced uveitis and, effect of L-NAME as NOS inhibitor (rat), 897
electroretinogram, recording of multifocal on and off responses, 574
endothelial cells
  effect of dorzolamide hydrochloride on, in normal human eyes, 23
  extracellular matrix production regulation by TGF-β, 1981
  FGF-2 isoforms in, 2252
  HCO_3^- transport, apical vs. basolateral polarity (bovine), 2713
  serum glucose levels and, type 1 diabetes mellitus patients and, 3
  sodium/potassium/two chloride cotransport in, volume regulation and fluid transport (bovine), 104
endothelium
  myofibroblast transformation of, TGF-β_1, -β_2, -β_3 (cat), 2018
  neonatal, mitotic inhibition (rat), 2572
  telomere lengths in donors of different ages, 648
epithelial cells
  defect healing, in plasminogen-/fibrinogen-deficient mice, 502
  response to inflammatory agents and antagonists, 2562
  SPARC and collagen contraction by keratocytes, 2547
  tears and, diagnosis of *Acanthoamoeba* keratitis by PCR, 1261
  wound healing, amyloid precursor-like protein 2 and, 292
epithelium
  amount of ascorbic acid in, diurnal and nocturnal species and, 2774
  cathepsin V gene in, 1789
  expression of α-2,3-sialyltransferase in (rabbit), 905
  HGF and KGF signaling in, 1329
  polymorphonuclear leukocyte damage to, prevention with lecithin-bound superoxide dismutase (guinea pig), 30
  water permeability reduction by anisotonic solutions (frog), 378
epithelium and anterior stroma, nutritional requirements, 284
epithelium-derived antigens, vasculitis and, 2594
fibroblast contractility, myofibroblast differentiation and, TGF-β1 in collagen gel contraction with, 699
fibroblasts and myofibroblasts, functional gap junctions in, 1320
HSV accumulation in, latency-associated transcripts (rabbit), 1847
HSV-1 in, MIP-2 in neutrophil migration and tissue injury in, 1854
human epithelial cells, whole-cell ionic current in, 1143
hydrated and swollen, anterior-posterior strain variation in (rabbit), 253
hydration gradient, confocal Raman spectroscopy assessment, 831
hydration permeability, regulation by adenosine/cAMP/protein kinases, 2076
infection, parasite adhesion and, oral immunization with *Acanthamoeba* antigens and, 2337
inflammation, *Acanthamoeba castellanii* keratitis, resistance and mucosal IgA, 2666
injury, surfactant-induced, subsequent ocular responses and, 2610
integrity, angiopoietinlike factor and, molecular cloning, 1782
keratin 12 promoter specific to, identification by particle-mediated gene transfer, 2554
keratoconus and, enzyme and protease inhibitor expression in, 1117
keratocytes, cryopreservation and culture of, 1511
limbus and, epithelia, Rho-associated protein kinase and, 1266
normal, chemoattractant injection into, model for inflammation after alkali injury, 1744
opacity, topical Ras FTase, selective macrophage localization inhibition and, 2245
oxygen consumption, pH and, 2778
oxygen consumption (rabbit), 444
Pseudomonas aeruginosa infection, TIMP gene expression after, 331
receptors, bone morphogenic proteins 1 and 2, 2626
recurrent HSV-1 disease, periocular vaccination and, 1163
reepithelialization, expression and distribution of CD44, 710
refractive powers, irregular astigmatism evaluation by Fourier analysis of videokeratography data, 705
scarring, decorin and biglycan in, 1957
sclera and, human limbus, circumcorneal annulus of collagen fibrils in, 1125
stroma, collagen fibrils, structure and aging, 644
stromal development, identification and characterization of $\alpha_1\beta_1$ integrin and NG2 during (bird), 263
surfactant-induced injury, correlation of area and depth with cell death, 922
surgery, keratocyte apoptosis after, 276
wound- and inflammation-related neovascularization, vascular endothelial growth factor in (rat), 18
wound healing, expression of TIMPs and gelatinases A and B during (rat), 913
Corneal tilt, measurement, EyeSys videokeratoscope and, asymmetry and, 1727
Costimulatory molecules, in ocular cicatricial pemphigoid, 982
Cotransport, Na^+,K^+,Cl^-, dopamine stimulation, human nonpigmented epithelial cells, 1444
C1q, antibody-dependent activation of complement system, small molecular weight factor in aqueous humor and, 989
CRX gene, truncation mutations, retinal degeneration and, 2417

Cryopreservation, culture and, human corneal keratocytes and, 1511
αB-Crystallin, glucocorticoid response protein and, localization in normal and glaucomatous trabecular meshwork, 517
Crystallins
  lens, foreign antigen expression and immunotolerance (rat), 2049
  lens aging and cataract formation, methylglyoxal Maillard reaction and, 2355
γ-Crystallins, lens, aggregation in aqueous solutions (bovine), 1609
Culture studies
  bovine corneal endothelial cells, HCO_3^- transport, apical vs. basolateral polarity (bovine), 2713
  conjunctival epithelial cells, proton-driven dipeptide uptake in, 2365
  cultured nonpigmented ciliary epithelium, ascorbic acid and active sodium transport in (rabbit), 143
  epithelial cell line, reoxygenation injury in, lactoferrin uptake and, 1346
  horizontal cells physiology, cultured retinal neurons, 2637
  human corneal epithelial cells, whole-cell ionic current in, 1143
  human cultured RPE cells, autofluorescence granules in, 1487
  human lens epithelium, GSH transport and oxidant injury, 1379
  human trabecular meshwork cells, mRNA expression in functional growth factor receptors, 1575
  long-term postconfluent, RPE autofluorescence in, 1478
  MMPs, aqueous humor outflow and, human organ culture, 2649
  Müller cells, PGE_2 and VEGF/bFGF mRNA expression in (rat), 581
  p-glycoprotein drug efflux pump, in conjunctival epithelial cells (rabbit), 1221
  rat RPE, effect of cytokines and nitric oxide on tight junctions in (rat), 1600
  retinal cells, FK506 effects on glutamate-induced neurotoxicity, 1227
  retinal Müller cells
    antigenic changes (rabbit), 1453
    establishment and characterization of (rat), 212
  RPE dystrophic rat cells, Ca^{2+}-wave propagation in, 1493
  vitreous treatment of RPE cells, FGF-2 and, 2111
Currents, horizontal cells physiology, cultured retinal neurons, 2637
Cyclins
  D1, cell death and, retinal ischemia and, 610
  G1, cyclin-dependent kinase inhibitors and, choroidal melanocytes and melanoma cells, 876
Cyclooxygenase, -1 and -2, function increase of PGE_2 and $PGF_{2\alpha}$ receptors and, 1888
Cyclosporin A, topical, primary Sjögren's syndrome (mouse), 1551
Cytokines
  IL-2 and INF-γ production in T cells, patients with Behçet's disease, 996
  immunoregulatory, uveitis and, analysis of ocular fluid, 2659
  nitric oxide and, effect on RPE tight junctions (rat), 1600
  Staphylococcus aureus endophthalmitis model and (rat), 2785
Cytomegalovirus, retinitis
  effects of HPMPC on IOP (guinea pig), 1233
  in ocular fluids and blood of AIDS patients, genotyping of cytomegalovirus glycoprotein B, 1183
Cytosolic reductive stress, retina, Letter, 1295
Cytotoxicity, ornithine, prevention with proline, human retinal pigment epithelial cells, 808

D

Daunomycin, intravitreal, induction of multidrug resistance by, in proliferative vitreoretinopathy, 164
Decorin, biglycan and, in corneal scarring, 1957
Densitometry, retinal, optical Stiles–Crawford effect and, clinical setting, 1519
Diabetes mellitus
  glucose concentrations, microvascular barrier integrity and, retinal endothelium, disruption of β-receptor signaling, 1676
  hypertension and, ciliary artery smooth muscle growth, insulin and angiotensin II in, 2067
  increased leukocyte entrapment, retinal microcirculation and (rat), 2190
  long-term, retinal hypoxia and (cat), 1647
  type 1, corneal function and serum glucose levels in, 3
  vitreopathy, advanced glycation in vitreous and, 2517
Diabetic retinopathy
  early and late intervention therapies, galactose-fed rats, 1933
  high-risk proliferative, risk factors, Early Treatment Retinopathy Study Report #18, 233
  long-term diabetes mellitus, retinal hypoxia and (cat), 1647
  rapid glucose reduction, apoptosis regulation gene expression in pericytes and, 1535
Differential display, insulin-like growth factor-I receptor and insulin-like growth factor binding protein-5 expression, by human trabecular meshwork, 45
Dipeptides, proton-driven uptake, cultured conjunctival epithelial cells, 2365
Directional bias, visual cortex, V1 neurons and, infant monkey, 2259
DNA
  cis-acting elements, red and green pigment gene promoters, functional analysis, 885
  introduction into trabecular meshwork, fusogenic liposomes and (rat and primate), 509
  strand breaks, x-ray cataract and, TEMPOL protection in lens (rabbit), 544
Docosahexaenoic acid, developing photoreceptor differentiation and, 2750
Dopamine, stimulation of Na^+·K^+·Cl^- cotransport, human nonpigmented epithelial cells, 1444
Dorzolamide hydrochloride, glaucoma treatment with, effects on corneal endothelial function in normal human eyes, 23
Doxorubicin, chemomyectomy, enhancement after bupivacaine injections, muscle satellite cell division and (rabbit), 203
Drug efflux pump, p-glycoprotein, in conjunctival epithelial cells (rabbit), 1221
Drug therapy
  human retinoblastoma cells, apoptosis induction by topoisomerase inhibitors in, 1300
  microtubule-/actin-altering, cellular contraction in human trabecular meshwork and, 653
  monocarboxylate drug carrier-mediated transport, pigmented conjunctiva (rabbit), 1436
  topical antibiotics, *Streptococcus pneumoniae* keratitis and (rabbit), 2012
  Toxoplasma cysts and, acute and chronic disease (hamster), 1171
Dry eye, mucin alteration, conjunctival epithelium, 2602
Dystrophin, localization in cone cells (mouse), Letter, 218

E

Early Treatment Retinopathy Study Report #18, risk factors for high-risk proliferative diabetic retinopathy, 233
Ectopia lentis, myopia and, pathogenesis in Marfan syndrome, histologic study of fibrillin microfibrillar system in lens capsule, normal *versus* Marfan subjects, 84
Edema, corneal, endotoxin-induced uveitis and, effect of L-NAME as NOS inhibitor (rat), 897
Electrical conductance, acetylcholine-induced membrane potential oscillations, in intact lens, cataracts and (rabbit), 111
Electroretinogram
  flicker, cycle-by-cycle analysis, retinal degeneration and, 1462
  multifocal, implicit time topography of, 718
  multifocal on and off responses, recording of, 574
  multifocal rod and full-field, 1152
  random sequence stimuli, effect of glutamate and neurotransmitters on, 2171
Embryo, vitreous hyaluronic acid, histochemical localization during embryonic development, 2466
Emmetropization, crystalline lens in childhood, optical and structural development of, 120
Endophthalmitis
  intraocular infection, detection and speciation of *Candida* spp by PCR and RFLP, 859
  Staphylococcus aureus, cytokines and (rat), 2785
Endothelial cells

corneal
extracellular matrix production regulation by TGF-β, 1981
FGF-2 isoforms in, 2252
HCO_3^- transport, apical vs. basolateral polarity (bovine), 2713
sodium/potassium/two chloride cotransport in, role in volume regulation and fluid transport and (bovine), 104
retinal, tight junction and adherens junction in, 2479
Schlemm's canal, isolation/culture/characterization, 1804
Endothelium
corneal
myofibroblast transformation of, TGF-β_1, -β_2, -β_3 (cat), 2018
neonatal, mitotic inhibition (rat), 2572
telomere lengths in donors of different ages, 648
retinal, glucose in, disruption of β-receptor signaling, 1676
Endotoxin-induced uveitis
cellular infiltration in, E-selectin and, 1620
corneal edema and, effect of L-NAME as NOS inhibitor (rat), 897
IL-6 and, in gene deletion animals (mice), 64
TNF receptors/IL-4/nitric oxide synthase deficiency and (mice), 658
Enzymes
photoreceptor outer segment digestion, RPE cells, adenovirus expression of cathepsin S antisense transcripts, 2095
protease inhibitors and, expression in corneas with keratoconus, 1117
Epidermal growth factor receptor, intraocular uveal melanoma metastases and, 1067
Epinephrine, β-adrenergic agonist, effect on paracellular width and fluid flow across endothelial cells, 1813
Epithelial cells
cultured conjunctival, proton-driven dipeptide uptake in, 2365
lens and, expression profiles of isoforms of P2 receptors, 2791
Epithelium
ciliary, aqueous humor secretion and, effects of bicarbonate on cell composition and (rabbit), 1631
conjunctival
bulbar cells, ionic currents from, 351
cells, p-glycoprotein drug efflux pump in (rabbit), 1221
mucin alteration, dry eye, 2602
corneal
amount of ascorbic acid in, diurnal and nocturnal species and, 2774
cathepsin V gene in, 1789
expression of α-2,3-sialyltransferase in (rabbit), 905
response to inflammatory agents and antagonists, 2562
tears and, diagnosis of *Acanthoamoeba* keratitis by PCR, 1261
water permeability reduction by anisotonic solutions (frog), 378
wound healing and expression and distribution of CD44, 710
corneal anterior stroma and, nutritional requirements, 284
corneal defects, healing of, in plasminogen-/fibrinogen-deficient mice, 502
cultured cell line, reoxygenation injury in, lactoferrin uptake and, 1346
fornical conjunctival and limbal cells, phorbol ester proliferation stimulation (mice), 301
GSH transport and oxidant injury, in lens, 1379
human corneal cells, whole-cell ionic current in, 1143
human lens cells, extended life span, growth control and differentiation genes, 1387
ICAM-1 expression in, TNF-α from mast cells and, 336
identification of cornea-specific keratin 12 promoter, particle-mediated gene transfer, 2554
lens
Na,K-ATPase polypeptide upregulation responses in, 763
UV-induced damage to, effect of aqueous humor ascorbate on, 344
limbal and corneal, Rho-associated protein kinase and, 1266
nonpigmented cells
dopamine stimulation of Na^+,K^+,Cl^- cotransport, 1444
synergistic receptor-activated calcium increases in, 1429
retina pigment, transplantation and immune response in subretinal space, 1021
Esotropia
early-onset, binocularity and optokinetic assymetry in, 1352
infantile, motion perception in, 724
Estrogen, receptor, retinal expression (bovine and rat), 2105
Experimental autoimmune uveoretinitis, inflammatory response and T cell traffic in, 754
Extracellular matrix
corneal stromal development, identification and characterization of $\alpha_1\beta_1$ integrin and NG2 during (bird), 263
production regulation, TGF-β and, corneal endothelial cells, 1981
Extraocular muscles, superior oblique palsy, medial rectus pulley displacement in, 207
Eye, orbit/face and, biometric study, normal human fetus, 2232
Eye closure, openings and, effect on photostasis (albino rat), 603
Eye development, cataract and lens opacity, chromosome 9 mutation at *Cat-4*^{a} location (mouse), 1863
Eye donors, Alabama grading system for age-related macular degeneration, 1085
Eye elongation, during accomodation, emmetropia vs. myopia, 2140
Eye movements
medial rectus pulley displacement, superior oblique palsy and, 207
saccadic
chorion type in, twins, 2186
Graves' disease and, 1544

F

Face, eye/orbit and, biometric study, normal human fetus, 2232
Fast phase, foveating and defoveating, in latent nystagmus, 1751
Fatty acids, polyunsaturated
blood lipids of Usher's syndrome, 2164
effects of docosahexaenoic acid on differentiation of developing photoreceptors, 2750
Fetus, normal human, biometric study of eye/orbit/face, 2232
Fiber cells, lens, membrane currents in, isolation in calcium-free conditions (rat), 1280
Fiberoptic technology, erbium:YAG laser, in experimental ocular surgery, 1667
Fibrillin, microfibrillar system in lens capsule, hisotologic study of normal and Marfan syndrome subjects, 84
Fibrils, collagen
circumcorneal annulus of, in human limbus, 1125
in human corneal stroma, structure and aging, 644
Fibroblast growth factor (FGF)
2
decreased expression, vitreous treatment of RPE cells, 2111
isoforms, corneal endothelial modulation, 2252
5, ARPE-19 cell line as polarity model in RPE and, 2744
Fibroblasts
corneal, contractility, myofibroblast differentiation and, TGF-β1 in collagen gel contraction with, 699
myofibroblasts and, cornea, functional gap junctions in, 1320
proliferation, TGF-β mitogenic effect on, 481
Field defects, local, detection with multifocal topographic visual evoked potential, 937
FK506, effects on glutamate-induced neurotoxicity, in retinal cell culture, 1227
Flicker electroretinogram, cycle-by-cycle analysis, retinal degeneration and, 1462
Flowmetry, Doppler, nitric oxide maintenance in choroidal blood flow and (rat), 559
Fluorescence, immunochemical studies and, glycation-related lens pigments, 2058
3-Fluoro-3-deoxy-D-glucose, flux investigation through substrate, ^{19}F-NMR spectroscopy and, lens (dog)
Fluorophotometry, detection of intravitreal peroxides, after panretinal laser photocoagulation, 358
Form-vision, experimental myopia, scleral proteoglycan turnover and (chick), 1990
Fourier analysis, videokeratography data, irregular astigmatism evaluation, 705
FP receptors, prostaglandin $F_{2\alpha}$, human trabecular meshwork, 315
Friedenwald Award 1998, Robert S. Molday, 2491
Fundus
circulation, aqueous humor dynamics and, effects of topical nipradolol on, 736

postmortem appearance, Alabama grading system for age-related macular degeneration in donor eyes, 1085

G

Galactose, rats, early and late intervention therapies for diabetic retinopathy, 1933
Ganglion cells
ciliary, neuropeptide Y-like immunoreactivity localization to axon terminals (monkey), 227
morphology, glaucomatous retina and (primate), 2304
retinal, cell death by low dose glutamate in (rat), 972
Gap junctions
functional, in corneal fibroblasts and myofibroblasts, 1320
protein connexin43, lens structural changes and (mice), 1198
Gelatinases, A and B, TIMPs and, expression during corneal wound healing (rat), 913
Gene array, guanylate cyclase activating proteins, retina (mouse), 867
Gene coding, *Gln369STOP* myocilin mutation, familial primary open-angle glaucoma and, 2288
Gene expression
altered, cataractous lens and, 2344
apoptosis regulation, retinal pericytes, rapid glucose reduction and, 1535
cone transducin-γ, cone degeneration and (dog), 1775
corneal epithelium, cathepsin V gene in, 1789
CRX gene, truncation mutations, retinal degeneration and, 2417
cyclcin D1 mRNA, cell death and, in retinal ischemia, 610
growth control and differentiation, HLE cells with extended life span and, 1387
MICA, polymorphisms, HLA-B27 subtypes and, HLA-B27–associated acute anterior uveitis, 634
neuropeptide Y, RPE signaling and, 1870
p53, light-induced cell death in retinal photoreceptors and, 846
red and green pigment promoters, functional analysis, 885
RPE65, promoter analysis of, 637
TIMPs, after *Pseudomonas aeruginosa* corneal infection, 331
Gene products, angiopoietinlike factor, corneal integrity and, molecular cloning, 1782
Gene regulation, apoptosis, retinal degeneration and absence of c-*fos* (mouse), 2239
Genetics
arrestin locus, retinitis pigmentosa/stationary night blindness and, 665
βig-h3 gene, *R124H* keratoepithelin mutations, severe corneal dystrophy and, 1947
β-phosphodiesterase mRNA, message instability, selective retinal degradation (mouse), 2529
cDNA cloning of retinal rod Na-Ca+K exchanger, revised bovine sequence and, 435
cGMP β-subunit gene mutation, defective RNA splicing, 463
chromosome 9 mutation at *Cat-4*^{a} location, cataract and lens opacity in eye development (mouse), 1863
cloning and mRNA expression, calpain Lp82 from lens (rat), 454
familial X-linked retinitis pigmentosa, *RPGR* splice defect and, 2470
fibrillin microfibrillar system in lens capsule, histologic study of normal *versus* Marfan syndrome subjects, 84
gene deletion animals, IL-6 and endotoxin-induced uveitis in (mice), 64
HRG4 photoreceptor cDNA, localization in ribbon synapse (rat), 690
missense mutation, C terminus of *PAX6* gene, ocular anterior segment anomalies, 828
multiple loci, risk factors for retinoblastoma (mice), 2723
PAX gene missense mutations, aniridia and, 2524
ribozyme-targeted destruction of RNA, autosomal-dominant retinitis pigmentosa and, 681
transgenic animal model
aldose reductase and naphthalene cataract in (mice), 193
evolution of neovascularization, overexpression of vascular endothelial growth factor in photoreceptors (mice), 180
viral oncogene transformation, retinal Müller cells and, establishment and characterization of (rat), 212
X-linked congenital stationary night blindness, naturally occurring (mice), 2443
X-linked recessive disorder, Norrie disease, retinal vasculature in (mice), 2450
Gene transfer
human trabecular meshwork, anterior segment perfusion and, 1503
particle-mediated, identification of cornea-specific keratin 12 promoter, 2554
retrovirus-mediated, to choroidal neovascular membranes, photocoagulation induced, 2474
Genotyping, cytomegalovirus glycoprotein B, in ocular fluids and blood of AIDS patients with cytomegalovirus retinitis, 1183
Glaucoma
β-adrenergic agonist as therapy, effect on paracellular width and fluid flow across endothelial cells, 1813
autoantibodies to heat shock proteins and, 2227
choroidal circulation and optic nerve in, 2329
chronic experimental, parapapillary chorioretinal atrophy and (monkey), 2296
diagnosis, multivariate sensory model in, 1567
dorzolamide hydrochloride treatment for, effects on corneal endothelial function in normal human eyes, 23
filtering surgery for, fibrosis mechanism after, TGF-β mitogenic effect on, 481
insulin-like growth factor-I receptor and insulin-like growth factor binding protein-5 expression in, by human trabecular meshwork, 45
iris atrophy/pigment dispersion and (mice), 951
mRNA expression in functional growth factor receptors and, cultured human trabecular meshwork cells, 1575
normal trabecular meshwork and, αB-crystallin and glucocorticoid response protein localization in, 517
peripapillary nerve fiber layer, surface slope of, 2321
primary open-angle
aqueous humor outflow and, two pore types in inner wall of Schlemm's canal, 2041
CD44H localization in, 673
familial, *Gln369STOP* myocilin mutation and, 2288
retinal ganglion cells, morphology (primate), 2304
topical therapy, IOP and optic nerve protection with (rat), 526
Glial cells, retinal Müller cells, establishment and characterization of (rat), 212
Glucose
levels in type 1 diabetes mellitus, corneal function and, 3
rapid reduction, apoptosis regulation gene expression in pericytes, 1535
retinal endothelium and, disruption of β-receptor signaling, 1676
β-Glucuronidase, retroviral cDNA, transfer to RPE, metabolism and, 1658
Glutamate
immunoreactivity, normal and detached retina (cat), 786
induced neurotoxicity, effects of FK506 on, in retinal cell culture, 1227
low dose, retinal ganglion cell death by (rat), 972
neurotransmitters and, effect on electroretinograms elicited by random sequence stimuli, 2171
Glutathione, epithelial transport, oxidant injury in human lens, 1379
Glycation
advanced, vitreous, diabetic vitreopathy and, 2517
lens pigments, fluorescence and immunochemical studies, 2058
Glycoprotein B, cytomegalovirus, genotyping, in ocular fluids and blood of AIDS patients with cytomegalovirus retinitis, 1183
Glycosaminoglycans, decorin and biglycan, in corneal scarring, 1957
Gold standards, vision testing, New Developments, 1297
Granulocytes, helminth-induced keratitis and, 1176
Graves' disease, saccadic eye movements in, 1544
Growth, fetal and infant, age-related nuclear lens opacities and, 1740
Growth factors. *See also* specific growth factors

functional receptors, cultured human trabecular meshwork cells, 1575
insulin-like I, insulin-like growth factor binding protein-5 and, expression by human trabecular meshwork, 45
vascular endothelial
overexpression in photoreceptors, evolution of neovascularization in (mice), 180
wound- and inflammation-related corneal neovascularization and (rat), 18
Growth patterns, ocular, hyaloidal circulation and, experimental ROP (rat), 391
Guanylate cyclase activating proteins, retina, gene array (mouse), 867
Guanylyl cylase–activating proteins, localization in mammalian retinas, 1243

H

HCO_3^- transport, corneal endothelial cells, apical vs. basolateral polarity (bovine), 2713
Heat shock proteins, autoantibodies to, glaucoma and, 2227
Hemianopia, vertical field border in, significance in fixation and reading, 2177
Hemifacial spasm, blepharospasm and, doxorubicin chemomyectomy and, enhancement after bupivacaine injections, muscle satellite cell division and (rabbit), 203
Hepatocyte growth factor
HLE cells with extended life span and, 1387
KGF and, signaling in corneal epithelial cells, 1329
Herpes simplex virus
latency-associated transcripts, tissue-specific accumulation in cornea (rabbit), 1847
type 1
anterior chamber inoculation of, T cells in uninjected eye after (mice), 78
cornea, MIP-2 in neutrophil migration and tissue injury in, 1854
types 1 and 2, recurrent corneal disease, periocular vaccination and, 1163
Hirschberg ratio, biometric confirmation, children with strabismus and, 2782
Histochemistry, nonvascular contractile cells, in sclera and choroid, humans and monkeys, 1765
H_2O_2, concentration in aqueous humor, cataract formation from oxidative stress, 1188
Horizontal cells
cultured retinal neurons, 2637
in retinoblastoma eyes, parvalbumin in, 1044
rod bipolar cells and, neurite outgrowth after retinal detachment, 424
Horizontal vergence, effect on vertical fusion, motor and sensory components, 2268
Host range, extension with multiple adenovirus serotypes (rabbit), 532
HPMPC, intravitreal injections of, effects on IOP (guinea pig), 1233
HRG4, photoreceptor cDNA, localization in ribbon synapse (rat), 690
Hyaluronan, primary open-angle glaucoma and, CD44H localization in, 673
Hyaluronic acid, vitreous, histochemical localization during embryonic development, 2466
Hydration
corneal permeability, regulation by cAMP/adenosine/protein kinase, 2076
gradient, cornea, confocal Raman spectroscopy assessment, 831
Hyperglycemia, corneal function and, type 1 diabetes mellitus patients and, 3
Hypertension
aging/atherosclerosis and, perifoveal vessels in, Rotterdam Study, 1049
diabetes and, ciliary artery smooth muscle growth, insulin and angiotensin II in, 2067
idiopathic intracranial, asymmetric papilledema in, interocular comparison of visual function, 134
Hypoxia
IL-8 induction by, NF-κB-mediated expression, role in intraocular neovascularization, 1097
photoreceptor dystrophy, in RCS rat, 2427
reoxygenation injury and, lactoferrin uptake and, cultured epithelial cell line, 1346
retinal, long-term diabetes (cat), 1647
VEGF and, integrin expression in retinal endothelial cells (bovine), 1028

I

βig, types VI and XII collagen and, mRNA levels during corneal development and wound healing (rabbit), 36
IL-1β–converting enzyme, γ-irradiation–induced apoptosis and, retinoblastoma cells, 2769
Illumination, steady retinal, extreme pupil responsiveness to, dark-adapted mouse, 2148
Immune deviation, antigen injection in subretinal space and, 1823
Immune privilege
ocular, Langerhans cell activity and, IL-1 receptor antagonist and, anterior chamber–associated immune deviation, 70
RPE cell-induced apoptosis, activated T cells, 1590
Immune response, RPE transplantation and, subretinal space, 1021
Immunization, oral
corneal alloantigens, immunologic phenotypes of hosts, 744
enhanced survival of corneal allograft, 1835
Immunoglobulin A
antibody responses in tears, inductive pathways for (rat), 1005
mucosal, *Acanthamoeba castellanii* keratitis resistance and, 2666
Immunohistochemistry
intraocular melanoma, tissue of origin and treatment (mice), 2800
nonvascular contractile cells, in sclera and choroid, humans and monkeys, 1765
Immunology, host phenotype, oral immunization with corneal alloantigens and, 744
Immunoreactivity
glutamate, normal and detached retina (cat), 786
neuropeptide Y-like, localization to axon terminals in ciliary ganglion (monkey), 227
Immunoregulation, cytokines, analysis of ocular fluid from uveitis patients, 2659
Immunotolerance, foreign antigens, expression in lens (rat), 2049
Implicit time topography, multifocal electroretinograms, 718
Indocyanine green, binding properties of, human blood, 1286
Inductive pathways, IgA antibody responses in tears (rat), 1005
Infantile esotropia, motion perception in, 724
Infants
congenital cataract, early treatment and visual development, 1560
early-onset esotropia in, binocularity and optokinetic assymetry in, 1352
Infection
cornea
HSV accumulation in, latency-associated transcripts (rabbit), 1847
parasite adhesion and, oral immunization with *Acanthamoeba* antigens and, 2337
HSV-1, in cornea, neutrophil migration and tissue injury from, MIP-2 and KC in, 1854
intraocular, detection and speciation of *Candida* spp by PCR and RFLP, 859
Pseudomonas aeruginosa corneal, TIMP gene expression after, 331
recurrent HSV-1 corneal disease, periocular vaccination and, 1163
uveitis, immunoregulatory cytokines and, analysis of ocular fluid, 2659
Inflammation
after alkali injury, chemoattractant injection into normal cornea as model, 1744
agents and antagonists, corneal epithelial cells, 2562
antibody-dependent activation of complement system, C1q and, small molecular weight factor in aqueous humor and, 989
corneal, topical Ras FTase and, selective localization macrophage inhibition, 2245
corneal endothelial modulation factor, FGF-2 isoforms and, 2252
corneal neovascularization and, vascular endothelial growth factor in (rat), 18
intraocular, acute uveitis and lipoteichoic acid in (rat), 1251
leukocyte kinetics, cell tracking and quantification by scanning laser ophthalmoscopy, 1879
microphages, NO generation by, aqueous humor suppression, 1372
nerve growth factor receptors and, expression on ocular surface, 1272
T cell traffic and, experimental autoimmune uveoretinitis, 754
topical cyclosporin A, primary Sjögren's syndrome and (mouse), 1551

uveoretinal, Müller cell–specific autoantibodies and, patient with progressive loss of vision, 1976
In Memoriam
A. Edward Maumenee, 1913–1998, 857
Elaine Ruth Berman, 1923–1997, 672
Mildred Weisenfeld, 1921–1997, 671
Insulin, angiotensin II and, ciliary artery smooth muscle growth and, 2067
Insulin-like growth factor-I, receptor, insulin-like growth factor binding protein-5 and, expression by human trabecular meshwork, 45
Integrins
$\alpha_3\beta_1$, NG2 and, identification and characterization during corneal stromal development (bird), 263
$\alpha v\beta 5$, photoreceptor rod outer segments during phagocytosis, cultured human RPE, 1703
$\alpha v\beta 3$ and $\alpha v\beta 5$, expression in retinal endothelial cells, effect of hypoxia and VEGF on (bovine), 1028
Intercellular adhesion molecules (ICAM), 1, expression in epithelial cells, TNF-α from mast cells and, 336
Intercellular communication, Ca^{2+}-wave propagation, cultured RPE dystrophic rat cells, 1493
Interferometry, laser, Doppler ultrasound and, noninvasive investigations of normal ocular circulation, humans, 1210
Interferons, INF-γ, IL-2 and, production in T cells, patients with Behçet's disease, 996
Interleukins
IL-1 receptor antagonist, Langerhans cell activity suppression and ocular immune privilege promotion, anterior chamber–associated immune deviation and, 70
IL-1β–converting enzyme, γ-irradiation–induced apoptosis and, retinoblastoma cells, 2769
IL-2, INF-γ and, production in T cells, patients with Behçet's disease, 996
IL-4, TNF receptors/nitric oxide synthase and, deficiency and endotoxin-induced uveitis (mice), 658
IL-6, endotoxin-induced uveitis and, gene deletion animals (mice), 64
IL-8, NF-κB-mediated expression, role in intraocular neovascularization, 1097
Intraocular pressure
β-adrenergic agonist as therapy, effect on paracellular width and fluid flow across endothelial cells, 1813
anterior-posterior strain variation, hydrated and swollen cornea and (rabbit), 253
control, optic nerve protection and, glaucoma topical therapy and (rat), 526
effects of HPMPC on (guinea pig), 1233
glaucoma and, multivariate sensory model for diagnosis, 1567
increase in optic nerve, microtubule-associated protein 1 and (guinea pig), 963
induced retinal ischemia, memantine protection (rat), 1063
iris atrophy/pigment dispersion/glaucoma (mice), 951
morphology of single ganglion cells, in glaucomatous retina (primate), 2304
nocturnal elevation, young adults, 2707
Schlemm's canal endothelial cells, isolation/culture/characterization, 1804
telemetry and, animal handling and drugs in (rabbit), 2485
topical nipradolol, effects on aqueous humor dynamics and fundus circulation, 736
Intravitreal peroxides, detection after panretinal laser photocoagulation, fluorophotometry in, 358
Investigative Ophthalmology and Visual Science, the present and future, Editorial, 1
Ionic currents
from conjunctival bulbar cells, 351
whole-cell, human corneal epithelial cells, 1143
Iris
atrophy, pigment dispersion/glaucoma and (mice), 951
ciliary body/eye fluids and, localization of lipocalin-type prostaglandin D_2 (rat), 198
circulation, measurement with laser speckle phenomenon, 364
Irritation, ocular, surfactant-induced corneal injury and, 2610
Ischemia
apoptosis and, melatonin counteraction, RPE cells, 2374
preconditioning, retina (rat), 777
retina, adenosine levels and, measurement in aqueous humor and vitreous, 1942
retinal
cell death, cyclin D1 in, 610
induction by oxygen and glucose deprivation (chick), 416
pressure-induced, protection with memantine (rat), 1063
retinal branch vein occlusion, inhibition of intraocular neovascularization by, protein kinase-Cβ inhibition with LY333531 and (pig), 171
retinal reperfusion injury, leukocyte dynamics in, 793
transient, vulnerability of inner retina to, role of p53 protein, 2132
Ischemia-reperfusion injury, retina, adult T-cell leukemia–derived factor and (rat), 1470
Isoenzymes, superoxide dismutase, human eye, 471
Isoproterenol, β-adrenergic agonist, effect on paracellular width and fluid flow across endothelial cells, 1813

K

Keratectomy
epithelial scrape-photorefractive, keratocyte apoptosis after, 276
photorefractive, wound healing after, confocal microscopy of, 487
Keratinocyte growth factor
HGF and, signaling in corneal epithelial cells, 1329
receptor cDNA, corneal and breast epithelial cells, 2584
Keratins, cornea-specific promoter, identification by particle-mediated gene transfer, 2554
Keratitis
Acanthamoeba castellanii, resistance and mucosal IgA, 2666
Acanthoamoeba, diagnosis by PCR, tear and corneal epithelial samples, 1261
helminth-induced, eosinophils and neutrophils in (mice), 1176
Streptococcus pneumoniae, model and topical therapy (rabbit), 2012
Keratoconus
collaborative longitudinal evaluation study, baseline findings, 2537
corneas with, enzyme and protease inhibitor expression in, 1117
Keratocytes
apoptosis
after corneal surgery, 276
corneal wound healing/tissue organization/disease, New Development, 220
collagen contraction by, SPARC and, corneal epithelial cells, 2547
cornea, cryopreservation and culture of, 1511
Keratoepithelin, *R124H* mutations, *βg-b3* gene, severe corneal dystrophy and, 1947
Keratomileusis, laser-assisted in situ, keratocyte apoptosis after, 276
Keratopathy, bullous, corneas with, tenascin-C splice variants in, 1135
Keratoplasty, immunologic host phenotype, oral immunization with corneal alloantigens, 744
Kinases, extracellular signal-regulated, activation by α_2-adrenergic agonists in Müller cells, 1721

L

Lacrimal gland
IgA antibody responses in tears, inductive pathways for (rat), 1005
M_3 muscarinic acetylcholine receptors, autoantibodies against, in Sjögren's syndrome patients, 151
secretion inhibition, G proteins and met-enkephalin in, 1339
superior, inwardly rectifying potassium channel in (rabbit), 308
Lactoferrin, uptake, reoxygenation injury and, cultured epithelial cell line, 1346
Langerhans cells, ocular immune privilege and, IL-1 receptor antagonist and, anterior chamber–associated immune deviation, 70
Lasers
confocal scanning laser tomography, optic disc, papilledema in pseudotumor cerebri and, 1964
erbium:YAG, in experimental ocular surgery, 1667
Laser therapy
accidental retinal injury, NMDA receptor and, Letter, 217
panretinal photocoagulation
intravitreal peroxide detection after, fluorophotometry in, 358
TGF-β upregulation after, 801

retinal photocoagulation, effects on photoreceptor bFGF and survival, 618
scatter photocoagulation, retinal microcirculation alterations after, 769
speckle phenomenon, measurement of iridial circulation, 364
Latency-associated transcripts, HSV accumulation in cornea and (rabbit), 1847
Lectin studies, α-2,3-sialyltransferase expression, corneal epithelium (rabbit), 905
Lens of eye
acetylcholine-induced membrane potential oscillations in, cataracts and (rabbit), 111
aging, cataract formation and, methylglyoxal Maillard reaction and, 2355
apoptosis, UV radiation and (rat), 2681
calpain Lp82 from, mRNA expression and cloning (rat), 454
capsule, fibrillin microfibrillar system in, histologic study of normal and Marfan syndrome subjects, 84
cataractous and normal, altered gene expression, 2344
connexins in, retroviral expression (chick), 537
crystalline, optical and structural development in childhood, 120
epithelial cells, extended life span, growth control and differentiation genes, 1387
epithelium
Na,K-ATPase polypeptide upregulation responses in, 763
UV-induced damage to, effect of aqueous humor ascorbate on, 344
expression profiles of isoforms of P2 receptors, 2791
fiber cells, membrane current in, isolation in calcium-free conditions (rat), 1280
focal opacities in, cholesterol/phospholipid/protein changes in, 94
foreign antigen expression, immunotolerance and (rat), 2049
human, age-related lipid oxidation in, 1053
naphthalene cataract, aldose reductase involvement in (mice), 193
nuclear opacities, age-related, reduced growth before 1 year of age and, 1740
postnatal, cataractogenic potency of TGF-β_1/-β_2/-β_3 in (rat), 1399
protein prenylation, 1276
structural changes, lack of protein connexin43 and (mice), 1198
thickness, correlates, Beaver Dam Eye Study, 1507
yellowing, glycation-related pigments, fluorescence and immunochemical studies, 2058
Leukemia, adult T-cell leukemia–derived factor, effect on retinal ischemia-reperfusion injury (rat), 1470
Leukocytes
adhesion molecules and, in allergic eye disease, 322
cellular infiltration and, E-selectin in, in endotoxin-induced uveitis, 1620
dynamics, retinal ischemia reperfusion injury, 793
increased entrapment, retinal microcirculation (rat), 2190
kinetics, cell tracking and quantification by scanning laser ophthalmoscopy, 1879
passenger, microglia as, intraocular neuronal retinal grafts and, 2384
polymorphonuclear, damage to corneal epithelial cells, prevention with lecithin-bound superoxide dismutase (guinea pig), 30
Light damage
photoreceptors and, luzindole melatonin antagonist in (rat), 2458
retina, light history and age-related changes in (rat), 1107
Limbus, human, circumcorneal annulus of collagen fibrils, 1125
Lipids
blood, polyunsaturated fatty acids in, Usher's syndrome, 2164
oxidation, age-related, human lenses, 1053
Lipocalin, prostaglandin D_2 localization in iris/ciliary body/eye fluids (rat), 198
Lipofuscin, human cultured RPE cells and, autofluorescence granules in, 1487
Lipopolysaccharides, cellular infiltration and, E-selectin in, in endotoxin-induced uveitis, 1620
Liposomes, fusogenic, DNA introduction into trabecular meshwork by, 509
Lipoteichoic acid, acute uveitis and (rat), 1251
L-NAME, as NOS inhibitor, effect on corneal edema in endotoxin-induced uveitis (rat), 897
Lutein, zeaxanthin and, measurement of macular carotenoid pigments in retina, Raman spectroscopy detection of, 2003
Luzindole, melatonin antagonist, photoreceptors and light damage (rat), 2458
Lymph vessels, fine structure, avian choroid, Letter, 854

M

Macrophage inflammatory protein-2, neutrophil migration and tissue injury from, HSV-1 in cornea and, 1854
Macrophages, selective localization inhibition, topical Ras FTase and, corneal opacity, 2245
Macular degeneration, age-related
Alabama grading system for donor eyes, 1085
choroidal blood flow in, Letter, 2201
foveolar choroidal blood flow and, 385
macular pigment distribution and foveal cone photopigment distribution, 2394
Macular pigment, density, visual sensitivity and, older subjects, 397
Maculopathy, age-related, refractive error and, Blue Mountains Eye Study, 2167
Magnetic resonance imaging, carbogen inhalation and, panretinal response, experimental retinopathy of prematurity, 840
Maillard reaction, methylglyoxal, lens aging and cataract formation and, 2355
Marfan syndrome, normal subjects vs., histologic study of fibrillin microfibrillar system in lens capsule, 84
Mast cells, TNF-α from, ICAM-1 expression in epithelial cells and, 336
Matrix metalloproteinases
activation in aqueous humor, Letter, 1763
aqueous humor outflow, human organ culture, 2649
ocular cell biology and pathology and, new discoveries, New Developments, 2514
proliferative vitreoretinopathy and, 1524
TIMPs and
in choroidal neovascular membranes, 2194
in human vitreous, 1256
Maumenee, A. Edward, 1913–1998, In Memoriam, 857
Measurement, uncertainty, cycle-by-cycle analysis of flicker electroretinogram, 1462
Mechanical stretch, signal transduction and actin cytoskeletal network alteration by, in trabecular meshwork, 1361
Melanocytes, choroidal, melanoma cells and, G1 cyclins and cyclin-dependent kinase inhibitors, 876
Melanoma
intraocular, pigmented intraocular tumor, tissue of origin and treatment (mice), 2800
uveal intraocular metastases, EGFR and, 1067
Melatonin
antagonist, luzindole, photoreceptors and light damage (rat), 2458
counteraction of ischemic apoptosis, RPE cells, 2374
Memantine, IOP-induced retinal ischemia (rat), 1063
Membrane currents, lens fiber cells, isolation in calcium-free conditions (rat), 1280
Membrane potential, acetylcholine-induced oscillations, intact lens, cataracts and (rabbit), 111
Membrane transport, proteins, sodium/potassium/two chloride cotransport in corneal endothelial cells, volume regulation and fluid transport (bovine), 104
Metabolism, retroviral β-glucuronidase cDNA, transfer to RPE, 1658
Metastases, uveal intraocular melanoma, EGFR and, 1067
Met-enkephalin, proteins G_{i2} and G_{i3} and, lacrimal secretion inhibition and, 1339
Methylglyoxal, Maillard reaction, lens aging and cataract formation with, 2355
Micoglia, as passenger leukocytes, intraocular neuronal retinal grafts and, 2384
Microanatomy, normal and *rd* chickens, optical coherence tomography and, 2405
Microcirculation
ciliary artery smooth muscle growth, insulin and angiotensin II in, 2067
retina, diabetes and increased leukocyte entrapment (rat), 2190
retinal, alterations after scatter photocoagulation, 769
Microphages, inflammatory, NO generation by, suppression by calcitonin gene-related peptide in aqueous humor, 1372
Microscopy
confocal
correlation of area and depth of surfac-

tant-induced corneal injury with cell death, 922
responses to surfactant-induced corneal injury and, 2610
wound healing after photorefractive keratectomy, 487
electron
intraocular melanoma, tissue of origin and treatment (mice), 2800
retinal nerve fiber layer, reflectance of, microtubule contribution to (toad), 189
Microtubules
contribution to reflectance of retinal nerve fiber layer (toad), 189
disruption, cellular contraction in human trabecular meshwork and, 653
protein 1, in optic nerve after IOP increase (guinea pig), 963
Missense mutation
C terminus of *PAX6* gene, ocular anterior segment anomalies, 828
PAX gene, aniridia and, 2524
Mitomycin C, subconjunctival injections, ultrastructural changes in ciliary body after (rabbit), 1971
Mitosis, inhibition, neonatal corneal endothelium (rat), 2572
Monocarboxylate drugs, carrier-mediated transport, pigmented conjunctiva (rabbit), 1436
Motion perception, infantile esotropia and, 724
mRNA
β-phosphodiesterase, message instability, selective retinal degradation (mouse), 2529
c-*fos* and c-*jun*, expression by bFGF in Müller cells (rat), 565
expression and cloning, calpain Lp82 from lens (rat), 454
expression in functional growth factor receptors, in cultured human trabecular meshwork cells, 1575
VEGF and bFGF, expression in Müller cells, PGE_2 and (rat), 581
Mucin, alteration, conjunctival epithelia in dry eye, 2602
Mucosa, tolerance induction, nasal antigen administration and, effects of mycophenolate Mofetil, 835
Müller cells
autoantibodies for, patient with progressive loss of vision and, 1976
c-*fos* and c-*jun* mRNA expression in, by bFGF (rat), 565
extracellular signal-regulated kinases in, activation by α_2-adrenergic agonists, 1721
retinal
antigenic changes (rabbit), 1453
establishment and characterization of (rat), 212
VEGF and bFGF mRNA expression in, PGE_2 and (rat), 581
Multidrug resistance, induction by intravitreal daunomycin, in proliferative vitreoretinopathy, 164
Muscarinic receptors, lacrimal gland M_3 acetylcholine, autoantibodies against, in Sjögren's syndrome patients, 151
Mutation, cGMP gene, defective RNA splicing and, 463
Mycophenolate Mofetil, effects on mucosal tolerance induction, nasal antigen administration and, 835
Myocilin, *Gln369STOP* mutation, familial primary open-angle glaucoma and, 2288
Myofibroblasts
corneal endothelium transformation, TGF-β_1, -β_2, -β_3 (cat), 2018
differentiation, corneal fibroblast contractility and, TGF-β1 in collagen gel contraction with, 699
fibroblasts and, cornea, functional gap junctions in, 1320
Myopia
ectopia lentis and, pathogenesis in Marfan syndrome, histologic study of fibrillin microfibrillar system in lens capsule, normal *versus* Marfan subjects, 84
emmetropia and, eye elongation during accomodation, 2140
experimental, scleral proteoglycan turnover and (chick), 1990
muscarinic acetylcholine receptor antagonists and, scleral chondrocytes and (chick), 2217
optical and structural development of crystalline lens, 120
transient, susceptibility to nearwork aftereffects, 1797

N

Nearwork
aftereffects, susceptibility in myopes, 1797
eye elongation during accomodation, emmetropia vs. myopia, 2140
Neovascularization
choroidal, MMPs and TIMPs in, 2194
corneal, wound- and inflammation-related, vascular endothelial growth factor in (rat), 18
evolution, vascular endothelial growth factor overexpression in photoreceptors (mice), 180
intraocular
inhibition by retinal ischemia, protein kinase-Cβ inhibition with LY333531 (pig), 171
role of NF-κB-mediated expression of IL-8 in, 1097
Neovascular membranes, choroidal, photocoagulation-induced, retrovirus-mediated gene transfer to, 2474
Nerve growth factor receptors, inflammation and, expression on ocular surface, 1272
Neural adaptation, stimulus duration/visual evoked potential amplitude and, 2759
Neurite outgrowth, from horizontal and rod bipolar cells, after retinal detachment, 424
Neurodegeneration, excitotoxic, retina, oxygen and glucose deprivation induction (chick), 416
Neurons
photoreceptors and, X-linked congenital stationary night blindness, naturally occurring (mice), 2443
retinal, physiology of horizontal cells in, 2637
retinal cell death, photoreceptor degeneration and, in *Bax*-deficient mice, 1713
V1, directional bias, infant monkey, 2259
Neuropeptide Y
-like immunoreactivity, localization to axon terminals in ciliary ganglion (monkey), 227
receptors and, signaling in RPE and, 1870
Neurotoxicity, glutamate-induced, effects of FK506 on, in retinal cell culture, 1227
Neurotransmitters, glutamate and, effect on electroretinograms elicited by random sequence stimuli, 2171
NF-κB, mediated expression of IL-8, role in intraocular neovascularization, 1097
Night blindness, X-linked congenital stationary, naturally occurring (mice), 2443
Nipradolol, topical, effects on aqueous humor dynamics and fundus circulation, 736
Nitric oxide
choroidal blood flow and, Doppler flowmetry (rat), 559
cytokines and, effect on RPE tight junctions (rat), 1600
donors, retinal and ciliary vessels and (bovine), 1642
generation by inflammatory microphages, suppression by calcitonin gene-related peptide in aqueous humor, 1372
selective release, retinal amacrine and bipolar cells (rabbit), 850
synthase
inhibitor, effect of L-NAME on corneal edema in endotoxin-induced uveitis (rat), 897
TNF receptors/IL-4 and, deficiency and endotoxin-induced uveitis (mice), 658
Nitroprusside, arteriolar constriction, after retinal branch vein occlusion, 1910
N-methyl-D-aspartate (NMDA) receptor, accidental retinal laser injury and, Letter, 217
Nonpigmented cells, epithelial, synergistic receptor-activated calcium increases in, 1429
Norepinephrine, infusion, aqueous humor flow and, sleeping humans, 1759
Norrie disease, retinal vasculature (mice), 2450
Nuclear magnetic resonance, ^{19}F spectroscopy, 3-FG and, flux investigation through polyol pathway, lens (dog), 2688
Nucleosides, transport mechanisms, pigmented conjunctiva (rabbit), 372
Nutrition
nuclear cataracts and, intervention, New Developments, 1531
requirements of corneal epithelium and anterior stroma, 284
Nystagmus
latent, foveating and defoveating fast phases in, 1751
optokinetic, directional bias in visual cortex, V1 neurons in infant monkey, 2259

O

Oblique muscles, superior oblique palsy, medial rectus pulley displacement in, 207

Ocular cicatricial pemphigoid, costimulatory molecules in, 982
Ocular tissue
human eye, superoxide dismutase isoenzymes in, 471
thioltransferase distribution in (bovine), 476
Ocular toxoplasmosis, retinochoroiditis and, acute and chronic *Toxoplasma* cysts, drug therapy and (hamster), 1171
Oculomotor mechanics, medial rectus pulley displacement, superior oblique palsy and, 207
Okazaki fragment sequence, replacement, in X-linked retinoschisis, *XLRS1* gene and, 1736
Onchocerca volvulus, helminth-induced keratitis, eosinophils and neutrophils in (mice), 1176
Opacification, posterior lens capsule, cataract surgery and, effect on TGF-β and lens cell proliferation, 1410
Ophthalmoscopy
confocal scanning laser, slope of peripapillary nerve fiber layer as structural marker, in glaucoma, 2321
scanning laser, cell tracking and quantification in leukocytes kinetics, 1879
Optical coherence tomography, microanatomy and, normal and *rd* chickens, 2405
Optical sectioning, noninvasive, chorioretinal vasculature, 2733
Optic nerve
choroidal circulation and, in glaucoma, 2329
confocal scanning laser tomography of, papilledema in pseudotumor cerebri and, 1964
crush, retinal ceruloplasmin expression after (rat), 157
damage, slope of peripapillary nerve fiber layer as structural marker, in glaucoma, 2321
microtubule-associated protein 1 in, after IOP increase (guinea pig), 963
protection, IOP control and, glaucoma topical therapy and (rat), 526
retrolaminar tissue pressure and cerebrospinal fluid pressure in, 1419
Optokinetic assymetry, binocular vision and, early-onset esotropia and, 1352
Oral immunization
Acanthamoeba antigens, impact on parasite adhesion and corneal infection, 2337
enhanced survival of corneal allograft and, 1835
Ora serrata, capillaries in Bruch's membrane at, human eye, 1076
Orbit, eye/face and, biometric study, normal human fetus, 2232
Organophosphates, pesticides, deprivation myopia and, 1290
Outer segment, rods
integrin $\alpha v\beta 5$ and, during phagocytosis, in cultured human RPE, 1703
retinal degenerative diseases/phototransduction/photoreceptor membranes proteins and, Friedenwald Award 1998, Lecture, 2492
Outflow, aqueous humor, MMPs and, human organ culture, 2649
Oxidant injury, GSH transport, in human lens epithelium, 1379
Oxidation, lipid, age-related, in human lens, 1053
Oxidative stress
cataract formation, H_2O_2 concentration in aqueous humor, 1188
polymorphonuclear leukocyte damage to corneal epithelial cells and, prevention by lecithin-bound superoxide dismutase (guinea pig), 30
superoxide dismutase isoenzymes, human eye, 471
Oxygen
consumption, cornea (rabbit), 444
debris/bFGF and, roles in photoreceptor dystrophy, RCS rat, 2427
Oxygen consumption, corneal, pH and, 2778
Oxygen-induced retinopathy, clinical and histopathologic features (dog), 1918
Oxygen tension, anterior chamber, measurement of (rabbit), 1899

P

p53, vulnerability of inner retina to transient ischemia and, 2132
Panretinal laser photocoagulation, intravitreal peroxide detection after, fluorophotometry in, 358
Papilledema
asymmetric, in idiopathic intracranial hypertension, interocular comparison of visual function, 134
in pseudotumor cerebri, confocal scanning laser tomography of optic disc and, 1964
Parapapillary chorioretinal atrophy, chronic experimental glaucoma (monkey), 2296
Parasites
Acanthamoeba castellanii, oral immunization with antigens, impact on parasite adhesion and corneal infection, 2337
helminth-induced keratitis, eosinophils and neutrophils in (mice), 1176
Parvalbumin, in retinoblastoma eyes, 1044
Pathogenesis, proliferative vitreoretinopathy, new model with endogenous cells, 2157
Pathology, biology and, cellular, MMPs and, new discoveries, New Developments, 2514
Pattern stimulation, local visual field defects and, detection with multifocal topographic visual evoked potential, 937
PAX gene, missense mutations, aniridia and, 2524
PAX6 gene, C terminus, missense mutation at, ocular anterior segment anomalies, 828
Pediatric ophthalmology, optical and structural development of crystalline lens, 120
Pericytes, apoptosis regulation gene expression, rapid glucose reduction and, 1535
Perifoveal vessels, in aging/hypertension/atherosclerosis, Rotterdam Study, 1049
Perimetry
interocular comparison of visual function, asymmetric papilledema in idiopathic intracranial hypertension, 134
short-wavelength automated, statistical aspects of normal visual field in, 54
Peripapillary nerve fiber layer, slope of, in glaucoma, 2321
Peripherin, rds and, identification of homologs of, retina (chick), 440
Permeability
corneal hydration, regulation by adenosine/cAMP/protein kinases, 2076
water, corneal epithelium and, anisotonic solutions (frog), 378
Pertussis toxin, proteins G_{i2} and G_{i3} and, metenkephalin and, lacrimal secretion inhibition with, 1339
Pesticides, organophosphates, deprivation myopia and, 1290
p-Glycoprotein
drug efflux pump, in conjunctival epithelial cells (rabbit), 1221
proliferative vitreoretinopathy and, induction of multidrug resistance by intravitreal daunomycin in, 164
pH, corneal oxygen consumption and, 2778
Phagocytosis, cultured human RPE, integrin $\alpha v\beta 5$ and, rod outer segments, 1703
Phenotype, immunologic host, oral immunization with corneal alloantigens, 744
Phorbol esters, stimulation, fornical conjunctival and limbal epithelial cell (mice), 301
β-Phosphodiesterase, mRNA, message instability, selective retinal degradation (mouse), 2529
Phospholipids, changes in cholesterol/proteins and, focal opacities in human lens and, 94
Photocoagulation
panretinal laser, TGF-β upregulation after, 801
retinal laser, effects on photoreceptor bFGF and survival, 618
risk factors for high-risk proliferative diabetic retinopathy and, Early Treatment Retinopathy Study Report #18, 233
scatter, retinal microcirculation alterations and, 769
Photons, absorption, photopigments and seeing, Proctor Lecture, 2205
Photopigments
foveal cone, distribution, macular pigment distribution and, 2394
retinal, human, transgenic mice expressing, 1036
seeing and, Proctor Lecture, 2205
Photoreceptors
bFGF, survival and, effects of retinal laser photocoagulation on, 618
Caenorhabditis elegans unc-119 expression in, human and murine cDNA, 2085
cDNA, HRG4 localization in ribbon synapse (rat), 690
cones
degeneration, transducin-γ gene and (dog), 1775

dystrophin localization in (mouse), Letter, 218
human retinal photopigments, transgenic mice expressing, 1036
sensitivity short-wavelength automated perimetry and, statistical aspects of visual field, 54 statistical aspects of visual field, short-wavelength automated perimetry and, 54
visual pigments, retinal densitometry and optical Stiles–Crawford effect and, clinical setting, 1519
CRX gene truncation mutations, retinal degeneration and, 2417
degeneration
human retinitis pigmentosa, rhodopsin transgenic pig as model, 808
retinal neuronal cell death and, *Bax*-deficient mice, 1713
transplantation of intact sheets of fetal retina and (rat), 2121
developing, effect of docosahexaenoic acid on differentiation, 2750
dystrophy, oxygen/debris/bFGF roles, in RCS rat, 2427
foveal cone photopigment distribution, macular pigment distribution and, 2394
iron-induced apoptosis in (rat), 631
light damage and, luzindole melatonin antagonist in (rat), 2458
red and green pigment gene promoters, functional analysis of, 885
retinal, light-induced cell death, p53 and, 846
retinal light damage, light history and age-related changes (rat), 1107
rods
bipolar cells, horizontal cells and, neurite outgrowth after retinal detachment, 424
cDNA cloning of retinal Na-Ca+K exchanger, revised bovine sequence and, 435
multifocal electroretinograms, 1152
outer segments integrin $\alpha v\beta 5$ and, during phagocytosis, in cultured human RPE, 1703 membrane proteins, phototransduction/degenerative diseases and, Friedenwald Award 1998, Lecture, 2492
second-order neurons and, X-linked congenital stationary night blindness, naturally occurring (mice), 2443
survival factor protection, retinal degeneration and (mouse), 592
Photostasis, effect of eye closures and openings on (albino rat), 603
Phototransduction, mammalian retina, localization of guanylyl cylase–activating proteins, 1243
Pigment
dispersion, iris atrophy/glaucoma and (mice), 951
human cone, expression in transgenic mice, 1036
red and green, gene promoters for, functional analysis of, 885
Platelet-derived growth factor (PDGF), HLE cells with extended life span and, 1387
Polymerase chain reaction
corneal epithelial and tear samples, diagnosis of *Acanthoamoeba* keratitis, 1261
RFLP and, detection and speciation of *Candida* spp intraocular infection, 859
Polymorphisms, MICA gene, HLA-B27 subtypes and, HLA-B27–associated acute anterior uveitis, 634
Polyol pathway, flux investigation through 3-FG substrate, ^{19}F-NMR spectroscopy and, lens (dog), 2688
Polypeptides, Na,K-ATPase, upregulation responses in lens epithelium, 763
Pores, inner wall of Schlemm's canal, aqueous humor outflow and glaucoma, 2041
Potassium channel, inwardly rectifying, superior lacrimal gland (rabbit), 308
P2 receptors, expression profiles of isoforms of, lens (rat), 2791
Preconditioning, ischemic retinal damage and (rat), 777
Prenylation, proteins, lens, 1276
Primary open-angle glaucoma, familial, *Gln369STOP* myocilin mutation and, 2288
Proctor Lecture, photopigments and seeing, 2205
Proctor Medal, Gerald H. Jacobs, 2203
Proliferative capacity, fornical conjunctival and limbal epithelial cell stimulation, phorbol ester stimulation (mice), 301
Proline, ornithine cytotoxicity prevention, human retinal pigment epithelial cells, 808
Prostaglandins
D synthase, lipocalin-type, localization in iris/ciliary body/eye fluids (rat), 198
E_2, VEGF and bFGF mRNA expression in Müller cells (rat), 581
E_2 and $F_{2\alpha}$ receptors, function increase by cyclooxygenase-1 and -2, 1888
$F_{2\alpha}$ receptors, human trabecular meshwork, 315
Protease inhibitor, enzymes and, expression in corneas with keratoconus, 1117
Protease IV, *Pseudomonas aeruginosa*, corneal damage and bacterial virulence with, 662
Protein 1, microtubule-associated, IOP increase in optic nerve and (guinea pig), 963
Protein kinase
Cβ, inhibition by LY333531, intraocular neovascularization inhibition by retinal ischemia (pig), 171
cAMP/adenosine and, regulation of corneal hydration permeability by, 2076
Rho-associated, limbal and corneal epithelia, 1266
Proteins
amyloid precursor-like protein 2, corneal epithelial wound healing and, 292
calcium-binding, parvalbumin in retinoblastoma eyes, 1044
changes in cholesterol/phospholipids and, focal opacities in human lens and, 94
concentration, circadian rhythm of, in aqueous humor (rabbit), 553
connexin43, lens structural changes and (mice), 1198
estrogen receptor, retinal expression (bovine and rat), 2105
G_{i2} and G_{i3}, met-enkephalin and, lacrimal secretion inhibition and, 1339
guanylyl cylase–activating, localization in mammalian retina, 1243
human blood plasma, binding properties of indocyanine green in, 1286
lens γ-crystallins, aggregation in aqueous solutions (bovine), 1609
membrane transport, sodium/potassium/two chloride cotransport in corneal endothelial cells, volume regulation and fluid transport (bovine), 104
MIP-2, HSV-1 in cornea and, neutrophil migration and tissue injury in, 1854
p53, role in inner retina vulnerability to transient ischemia, 2132
photoreceptor membranes, phototransduction/degenerative diseases and, Friedenwald Award 1998, Lecture, 2492
prenylation, lens, 1276
small heat shock, autoantibodies to, glaucoma and, 2227
SPARC
corneal epithelial cells, collagen contraction by keratocytes and, 2547
deficiency, early-onset cataractogenesis (mice), 2674
tyrosine kinase, role in contractility of trabecular meshwork and ciliary muscle, 1012
Proteoglycans
NG2, $\alpha_3\beta_1$ integrin and, identification and characterization during corneal stromal development (bird), 263
turnover, sclera, experimental myopia (chick), 1990
Pseudomonas aeruginosa
corneal infection, TIMP gene expression after, 331
protease IV, corneal damage and bacterial virulence with, 662
Pseudomonas aeruginosa infection, polymorphonuclear leukocyte damage to corneal epithelial cells and, prevention with lecithin-bound superoxide dismutase (guinea pig), 30
Pseudotumor cerebri, papilledema in, confocal scanning laser tomography of optic disc and, 1964
Pupil, extreme responsiveness, to steady retinal illumination, dark-adapted mouse, 2148

R

Ras farnesyltransferase, topical, corneal opacity and, selective macrophage localization inhibition and, 2245
Rb1 gene, multiple genetic loci, risk factors for retinoblastoma (mice), 2723
Reading, fixation and, hemianopia and vertical field border, 2177
Reepithelialization, amyloid precursor-like protein 2, corneal epithelial wound healing and, 292
Refractive development, organophosphate pesticides and, 1290

Refractive error, age-related maculopathy and, Blue Mountains Eye Study, 2167
Regeneration, muscle satellite cell division, doxorubicin chemomyectomy enhancement after bupivacaine injections (rabbit), 203
Reoxygenation injury, lactoferrin uptake and, cultured epithelial cell line, 1346
Reperfusion injury, retinal ischemia, leukocyte dynamics in, 793
Responses, multifocal on and off, electroretinogram, 574
Responsiveness, extreme, pupil, to steady retinal illumination, dark-adapted mouse, 2148
Restriction fragment length polymorphism, PCR and, detection and speciation of *Candida* spp intraocular infection, 859
Retina
  accidental laser injury, NMDA receptor and, Letter, 217
  branch vein occlusion, nitroprusside and arteriolar constriction after, 1910
  capillary hemodynamics, regional variation (cat), 407
  ceruloplasmin expression in, after optic nerve crush (rat), 157
  choroid and
    leukocyte kinetics, cell tracking and quantification by scanning laser ophthalmoscopy, 1879
    vasculature, noninvasive optical sectioning and, 2733
  ciliary body and, effect of NO donors on arteries of (bovine), 1642
  11-*cis* esters, 11*cis* REH and, colocalization in RPE, 1312
  cone cells, dystrophin localization in (mouse), Letter, 218
  cytosolic reductive stress, Letter, 1295
  degeneration
    absence of c-*fos* and (mouse), 2239
    CRX gene truncation mutations and, 2417
    survival factor protection of photoreceptors (mouse), 592
  degenerative diseases, phototransduction/photoreceptor membranes proteins and, rod outer segments, Friedenwald Award 1998, Lecture, 2492
  densitometry, optical Stiles–Crawford effect and, clinical setting, 1519
  detached
    amino acid signatures (cat), 1694
    neurite outgrowth after, 424
  differentiation of developing photoreceptors, effects of docosahexaenoic acid on, 2750
  endothelial cells
    hypoxia and VEGF regulation of integrin expression in (bovine), 1028
    tight junction and adherens junction in, 2479
  endothelium, glucose in, disruption of β-receptor signaling, 1676
  estrogen receptor expression (bovine and rat), 2105
  excitotoxic neurodegeneration, oxygen and glucose deprivation induction (chick), 416
  ganglion cell death, low dose glutamate and (rat), 972
  glaucomatous, morphology of ganglion cells in (primate), 2304
  guanylate cyclase activating protein, gene array (mouse), 867
  heat shock proteins, autoantibodies to, glaucoma and, 2227
  hypoxia, long-term diabetes (cat), 1647
  inner, vulnerability to transient ischemia, role of p53 protein in, 2132
  intraocular neuronal grafts, microglia as passenger leukocytes in, 2384
  ischemia
    adenosine levels and, measurement in aqueous humor and vitreous, 1942
    cell death, cyclin D1 in, 610
    pressure-induced, protection with memantine (rat), 1063
  ischemia-reperfusion injury
    adult T-cell leukemia–derived factor and (rat), 1470
    leukocyte dynamics in, 793
  ischemic preconditioning (rat), 777
  laser photocoagulation, effects on photoreceptor bFGF and survival, 618
  light damage, light history and age-related changes in (rat), 1107
  mammalian, localization of guanylyl cylase-activating proteins, 1243
  measurement of macular carotenoid pigments in, Raman spectroscopy detection of, 2003
  microcirculation
    alterations after scatter photocoagulation, 769
    diabetes and increased leukocyte entrapment (rat), 2190
  Müller cells
    activation of extracellular signal-regulated kinases in, by α_2-adrenergic agonists, 1721
    antigenic changes (rabbit), 1453
    establishment and characterization of (rat), 212
  neural, neuropeptide Y gene expression, RPE signaling and, 1870
  neuronal cell death, photoreceptor degeneration and, *Bax*-deficient mice, 1713
  neurons, physiology of horizontal cells in, 2637
  normal, amino acid signatures (cat), 1685
  normal and detached, glutamate immunoreactivity in (cat), 786
  panretinal laser photocoagulation, TGF-β upregulation after, 801
  pericytes, apoptosis gene expression, rapid glucose reduction and, 1535
  PGE_2 and $PGF_{2\alpha}$ receptors, function increase by cyclooxygenase-1 and -2, 1888
  photopigments, human, transgenic mice expressing, 1036
  photoreceptors, light-induced cell death in, p53 and, 846
  reconstruction model, transplantation of intact sheets of fetal retina (rat), 2121
  response, carbogen inhalation and MRI, experimental retinopathy of prematurity, 840
  rod Na-Ca+K exchanger, cDNA cloning of, revised bovine sequence and, 435
  selective release of nitric oxide, amacrine and bipolar cells and (rabbit), 850
  steady illumination, extreme pupil responsiveness to, dark-adapted mouse, 2148
  vasculature, Norrie disease (mice), 2450
  wound healing, proliferative vitreoretinopathy and, MMPs in, 1524
Retinal degeneration, slow, peripherin and, identification of homologs of, retina (chick), 440
Retinal dystrophy, autosomal recessive childhood-onset, *RPE65* gene for, 637
Retinal ester hydrolase, 11-*cis*, 11-*cis* retinal esters and, colocalization in RPE, 1312
Retinal ischemia, inhibition of intraocular neovascularization by, protein kinse-Cβ inhibition with LY333531 and (pig), 171
Retinal nerve, fiber layer, reflectance, microtubule contribution to (toad), 189
Retinal pigment epithelium
  apoptosis, activated T cells, immune privilege and, 1590
  autofluorescence in, long-term postconfluent cultures, 1478
  cathepsin S antisense transcripts, adenovirus expression, 2095
  colocalization of 11-*cis* REH and 11-*cis* retinal esters, 1312
  cultured, Ca^{2+}-wave propagation in, dystrophic rats, 1493
  degeneration, transplantation of intact sheets of fetal retina and (rat), 2121
  human cultured, autofluorescent granules in, 1487
  ischemic apoptosis, melatonin counteraction, 2374
  ornithine cytotoxicity prevention in, proline and, 808
  phagocytosis by, integrin $\alpha v\beta 5$ and, rod outer segments, 1703
  polarity model, ARPE-19 cell line as, FGF5 in, 2744
  protein, *RPE65* gene for, 637
  retrovirus cDNA transfer to, metabolism and, 1658
  signaling in, neuropeptide Y receptors and, 1870
  tight junctions, effect of cytokines and nitric oxide on (rat), 1600
  transplantation and immune response, subretinal space, 1021
  vitreous treatment of, FGF-2 and, 2111
Retinitis
  anterior chamber inoculation of herpes simplex virus type 1, T cells in uninjected eye after (mice), 78
  cytomegalovirus
    effects of HPMPC on IOP (guinea pig), 1233
    in ocular fluids and blood of AIDS patients, genotyping of cytomegalovirus glycoprotein B, 1183
Retinitis pigmentosa
  absence of c-*fos* and (mouse), 2239
  autosomal-dominant, ribozyme-targeted destruction of RNA and, 681
  flicker electroretinogram, cycle-by-cycle analysis, 1462

human, rhodopsin transgenic pig as model, 808
multifocal electroretinograms, implicit time topography of, 718
polyunsaturated fatty acids in blood lipids, 2164
stationary night blindness and, human arrestin locus and, 665
X-linked, *RPGR* splice defect and, 2470
Retinoblastoma
cells, γ-irradiation–induced apoptosis and, IL-1β–converting enzyme in, 2769
human cells, apoptosis induction by topoisomerase inhibitors, 1300
parvalbumin in eyes with, 1044
risk factors, multiple genetic loci and (mice), 2723
Retinochoroiditis, ocular toxoplasmosis and, acute and chronic *Toxoplasma* cysts, drug therapy and (hamster), 1171
Retinopathy
high-risk proliferative diabetic, risk factors, Early Treatment Retinopathy Study Report #18, 233
oxygen-induced proliferative, clinical and histopathologic features (dog), 1918
uveoretinal inflammation, Müller cell–specific autoantibodies and, patient with progressive loss of vision, 1976
Retinopathy of prematurity (ROP)
carbogen inhalation and MRI, panretinal response in, 840
experimental, hyaloidal circulation and ocular growth patterns in (rat), 391
Retinoschisis, X-linked, Okazaki fragment sequence replacement in *XLRS1* gene and, 1736
Retrolaminar tissue, pressure, cerebrospinal fluid pressure and, optic nerve, 1419
Retrovirus
cDNA transfer to RPE, metabolism and, 1658
connexin expression, lens (chick), 537
gene transfer to choroidal neovascular membranes, photocoagulation induced, 2474
Ribbon synapse, HRG4 localization in, photoreceptor cDNA (rat), 690
Ribozymes, targeted RNA destruction, autosomal-dominant retinitis pigmentosa and, 681
RNA
defective splice site, cGMP β-subunit gene, 463
ribozyme-targeted destruction of, autosomal-dominant retinitis pigmentosa and, 681
Rods. *See* Photoreceptors
Rotterdam Study, perifoveal vessels, aging/hypertension/atherosclerosis, 1049
RPGR gene, splice defect in, X-linked retinitis pigmentosa, 2470

S

Saccades, eye movements
chorion type in, twins, 2186
Graves' disease and, 1544
Scarring
cornea, decorin and biglycan in, 1957
Tenon's capsule fibroblasts, induction of apoptosis by antimetabolites in, 449
Schlemm's canal
endothelial cells from, isolation/culture/characterization, 1804
inner wall, two pore types in, aqueous humor outflow and, 2041
Sclera
chondrocytes, muscarinic acetylcholine receptor antagonists (chick), 2217
choroid and, nonvascular contractile cells in humans and monkeys, 1765
cornea and, human limbus, circumcorneal annulus of collagen fibrils in, 1125
proteoglycan turnover, experimental myopia (chick), 1990
Secreted protein acidic and rich in cysteine (SPARC)
corneal epithelial cells, collagen contraction by keratocytes and, 2547
deficiency, early-onset cataractogenesis and (mice), 2674
E-Selectin, cellular infiltration and, in endotoxin-induced uveitis, 1620
Sensory model, multivariate, glaucoma diagnosis and, 1567
Serotype, multiple adenovirus, host range extension and (rabbit), 532
α-2,3-Sialyltransferase, expression in corneal epithelium (rabbit), 905
Signal transduction, actin cytoskeletal network and, alteration by mechanical stretch in trabecular meshwork, 1361
Sjögren's syndrome, primary
lacrimal gland M_3 muscarinic acetylcholine receptors in, autoantibodies against, 151
topical cyclosporin A in (mouse), 1551
Sleep, norepinephrine infusion during, aqueous humor flow and, humans, 1759
Smooth muscle, ciliary artery, insulin and angiotensin II in growth of, 2067
Sodium, active transport, ascorbic acid and, in cultured nonpigmented ciliary epithelium (rabbit), 143
Speckle phenomenon, laser, measurement of iridial circulation, 364
Spectroscopy
confocal Raman, assessment of hydration gradient across the cornea by, 831
^{19}F-NMR, 3-FG and, flux investigation through polyol pathway, lens (dog), 2688
Raman, macular carotenoid pigments in intact retina, 2003
Splicing, RNA, cGMP β-subunit gene mutation, 463
Staphylococcus aureus, endophthalmitis, cytokines and (rat), 2785
Static perimetry, short-wavelength automated, statistical aspects of normal visual field in, 54
Stationary night blindness, retinitis pigmentosa and, human arrestin locus and, 665
Stiles–Crawford effect, retinal densitometry and, clinical setting, 1519
Stimulus, duration, visual evoked potential amplitude and, neural adaptation and, 2759
Strabismus
children, biometric confirmation of Hirschberg ratio, 2782
superior oblique palsy, medial rectus pulley displacement in, 207
Strain, anterior-posterior variation, in hydrated and swollen cornea and (rabbit), 253
Streptococcus pneumoniae, keratitis, model and topical therapy (rabbit), 2012
Stress proteins, localization in normal and glaucomatous trabecular meshwork, 517
Stroma
anterior, corneal epithelium and, nutritional requirements of, 284
corneal
development of, identification and characterization of $\alpha_4\beta_1$ integrin and NG2 during (bird), 263
epithelial interactions and, HGF and KGF signaling in, 1329
Subretinal space
antigen injection, immune deviation and, 1823
evolution of neovascularization, overexpression of vascular endothelial growth factor in photoreceptors (mice), 180
RPE transplantation and immune response in, 1021
Superoxide dismutase
isoenzymes, human eye, 471
lecithin-bound, prevention of neutrophil-induced corneal tissue damage (guinea pig), 30
Surfactants
induced corneal injury, subsequent ocular responses and, 2610
induction of corneal injury, correlation of area and depth with cell death, 922
Surgery
cataract, effect on TGF-β and lens cell proliferation, 1410
experimental ocular, use of erbium:YAG laser in, 1667
glaucoma, fibrosis mechanism after, TGF-β mitogenic effect on, 481
photorefractive keratectomy, wound healing after, confocal microscopy of, 487
Survival factor, photoreceptor protection, retinal degeneration and (mouse), 592

T

T cells
activated, RPE cell-induced apoptosis, immune privilege, 1590
IL-2 and INF-γ production in, patients with Behçet's disease, 996
traffic, inflammatory response and, in experimental autoimmune uveoretinitis, 754
in uninjected eye, anterior chamber inoculation of herpes simplex virus type 1 and (mice), 78
Tears
corneal epithelium and, diagnosis of *Acanthoamoeba* keratitis by PCR, 1261
IgA antibody responses in, inductive pathways for (rat), 1005
IgA in, oral immunization with *Acanthamoeba* antigens, impact on parasite adhesion and corneal infection, 2337

Telemetry, intraocular pressure and, animal handling and drugs in (rabbit), 2485
Telomere, lengths, in corneal endothelial cells, donors of different ages, 648
TEMPOL, lens protection, x-ray-induced cataracts and DNA strand breaks and (rabbit), 544
Tenascin-C, splice variants, human corneas with bullous keratopathy, 1135
Tenon's capsule, fibroblasts, induction of apoptosis by antimetabolites in, 449
Thioltransferase, distribution in ocular tissue (bovine), 476
Tight junctions
  adherens junction and, human retinal endothelial, 2479
  cultured RPE cells, effect of cytokines and nitric oxide on tight junctions in (rat), 1600
Tissue inhibitors of metalloproteinases (TIMPs)
  gelatinases A and B, expression during corneal wound healing (rat), 913
  gene expression, after *Pseudomonas aeruginosa* corneal infection, 331
  MMPs and
    in choroidal neovascular membranes, 2194
    in human vitreous, 1256
Tomography, optical coherence, microanatomy and, normal and *rd* chickens, 2405
Topoisomerase inhibitors, apoptosis induction by, in human retinoblastoma cells, 1300
Toxoplasma cysts, acute and chronic disease, drug therapy and (hamster), 1171
Trabecular meshwork
  cellular contraction in, microtubule disruption and, 653
  ciliary muscle and, contractility of, protein tyrosine kinase and, 1012
  cultured human, functional growth factor receptors in, 1575
  DNA introduction into, fusogenic liposomes and (rat and primate), 509
  gene transfer, anterior segment perfusion and, adenovirus vector, 1503
  human, prostaglandin $F_{2\alpha}$ receptors, 315
  insulin like growth factor-I receptor and insulin-like growth factor binding protein-5 expression by, 45
  normal and glaucomatous, αB-crystallin and glucocorticoid response protein localization in, 517
  Schlemm's canal endothelial cells, isolation/culture/characterization, 1804
  signal transduction and actin cytoskeletal network alteration, mechanical stretch and, 1361
Transducin-γ, gene, cone degeneration and (dog), 1775
Transforming growth factor
  β
    $\beta_1/\beta_2/\beta_3$, myofibroblast transformation of corneal endothelium (cat), 2018
    extracellular matrix production and, corneal endothelial cells, 1981
    lens cell proliferation and, effect of cataract surgery, 1410
    mitogenic effect on subconjunctival fibroblast proliferation, 481
    upregulation, after panretinal laser photocoagulation, 801
  β1, collagen gel contraction, corneal fibroblast contractility and myofibroblast differentiation, 699
  $\beta_1/\beta_2/\beta_3$, cataractogenic potency, in postnatal eye (rat), 1399
  bone morphogenic proteins 1 and 2, corneal receptors, 2626
Transient myopia, nearwork aftereffects and, 1797
Transplantation
  cornea, enhanced survival by oral immunization, 1835
  corneal, immunologic host phenotype, oral immunization with corneal alloantigens, 744
  intact sheets of fetal retina, restoration of damaged rat retinas and, 2121
  intraocular neuronal retinal, microglia as passenger leukocytes in, 2384
  RPE, immune response and, in subretinal space, 1021
Tumor necrosis factor (TNF)
  α, from mast cells, ICAM-1 expression in epithelial cells and, 336
  receptors, IL-4/nitric oxide synthase and, deficiency and endotoxin-induced uveitis (mice), 658
Tumors, pigmented intraocular, tissue of origin and treatment (mice), 2800
Twins, saccadic eye movements, chorion type and, 2186
Tyrosine kinase, role in contractility of trabecular meshwork and ciliary muscle, 1012

U

Ultrasound, Doppler, laser interferometry and, noninvasive investigations of normal ocular circulation, humans, 1210
Ultrastructural changes, ciliary body, after mitomycin C injections (rabbit), 1971
Ultraviolet radiation
  damage to lens epithelium, effect of aqueous humor ascorbate on, 344
  lens apoptosis and (rat), 2681
unc-119, Caenorhabditis elegans, expression in photoreceptors, human and murine cDNA, 2085
Usher's syndrome, blood lipids of, polyunsaturated fatty acids in, 2164
Uvea, intraocular melanoma metastases, EGFR and, 1067
Uveitis
  acute, lipoteichoic acid and (rat), 1251
  endotoxin-induced
    cellular infiltration in, E-selectin and, 1620
    corneal edema and, effect of L-NAME as NOS inhibitor (rat), 897
    IL-6 and, in gene deletion animals (mice), 64
    TNF receptors/IL-4/nitric oxide synthase deficiency and (mice), 658
  HLA-B27–associated, MICA gene polymorphisms and HLA-B27 subtypes and, 634
  immunoregulatory cytokines and, analysis of ocular fluid, 2659
Uveoretinitis, experimental autoimmune, inflammatory response and T cell traffic in, 754

V

Vaccination, periocular, recurrent HSV-1 corneal disease and, 1163
Vascular endothelial growth factor (VEGF)
  bFGF and, mRNA expression in Müller cells, PGE_2 and (rat), 581
  hypoxia and, integrin expression in retinal endothelial cells (bovine), 1028
  overexpression in photoreceptors, evolution of neovascularization in (mice), 180
  wound- and inflammation-related corneal neovascularization and (rat), 18
Vasculature
  chorioretinal, noninvasive optical sectioning and, 2733
  retinal, Norrie disease and (mice), 2450
Vasculitis, corneal epithelium-derived antigens, 2594
Vasodilators, retina and ciliary body arteries, effect of NO donors on (bovine), 1642
Vertical field border, hemianopia and, significance in fixation and reading, 2177
Vertical fusion, effect of horizontal vergence on, motor and sensory components, 2268
Videokeratography, Fourier analysis of data, irregular astigmatism evaluation, 705
Videokeratoscope, EyeSys, corneal tilt measurement, asymmetry and, 1727
Virus, SV40, inflammatory agents and antagonists in corneal epithelial cells, 2562
Vision testing, gold standards, New Developments, 1297
Visual cortex, directional bias, V1 neurons and, infant monkey, 2259
Visual development, congenital cataract, early treatment and, 1560
Visual evoked potential
  amplitude, stimulus duration, neural adaptation and, 2759
  multifocal, anisometropic and esotropic amblyopia, 2033
  multifocal topographic, detection of local visual field defects and, 937
Visual field
  local defects, detection with multifocal topographic visual evoked potential, 937
  multifocal visual evoked potential, anisometropic and esotropic amblyopia, 2033
  statistical aspects of, short-wavelength automated perimetry and, 54
  vertical border, hemianopia and, significance in fixation and reading, 2177
Visual function, interocular comparison, asymmetric papilledema in idiopathic intracranial hypertension, 134
Visually guided behavior, age and (rat), 1058
Visual sensitivity, macular pigment density and, older subjects, 397
Vitrectomy
  proliferative vitreoretinopathy and, induc-

tion of multidrug resistance by intravitreal daunomycin in, 164
severe visual loss and, risk factors for high-risk proliferative diabetic retinopathy and, Early Treatment Retinopathy Study Report #18, 233
Vitreoretinopathy, proliferative
induction of multidrug resistance by intravitreal daunomycin in, 164
MMPs and, 1524
new model with endogenous cells, 2157
Vitreous
advanced glycation in, diabetic vitreopathy and, 2517
aqueous humor and, adenosine levels in, 1942
human, TIMPs and MMPs in, 1256
hyaluronic acid, histochemical localization during embryonic development, 2466
treatment of RPE cells, FGF-2 and, 2111
Volume regulation, fluid transport and, corneal endothelial cells, sodium/potassium/two chloride cotransport in (bovine), 104

W

Wavelength, short, automated perimetry, statistical aspects of normal visual field in, 54
Weisenfeld, Mildred, 1921–1997, In Memoriam, 671
Wound healing
after photorefractive keratectomy, confocal microscopy of, 487
antimetabolites, induction of apoptosis by, in Tenon's capsule fibroblasts, 449
aqueous humor ascorbate, UV-induced damage to lens epithelium and, 344
corneal, expression of TIMPs and gelatinases A and B during (rat), 913
corneal development and, mRNA levels of collagen during (rabbit), 36
corneal epithelial defects, in plasminogen-/fibrinogen-deficient mice, 502
corneal epithelium
amyloid precursor-like protein 2 and, 292
expression and distribution of CD44 in, 710
corneal neovascularization, vascular endothelial growth factor in (rat), 18
corneal surgery, keratocyte apoptosis after, 276
corneal tissue organization/disease and, keratocyte apoptosis and, New Development, 220
proliferative vitreoretinopathy and, MMPs in, 1524

X

XLRS1 gene, mutation, Okazaki fragment sequence replacement in, X-linked retinoschisis, 1736

Z

Zeaxanthin, lutein and, measurement of macular carotenoid pigments in retina, Raman spectroscopy detection of, 2003
